

Join us! Measure S Forum

Undecided on Measure S (also known as the Neighborhood Integrity Initiative)? Then join us one week from today, Feb. 26, for a moderated conversation with experts on both sides of the issue, and hear about the implications for our environment.

Our panelists: Jack Humphreville, columnist for CityWatch LA and president of the Department of Water and Power Advocacy Committee; Miki Jackson, grassroots activist and consultant to AIDS Healthcare Foundation; Michael Manville, assistant professor of urban planning, UCLA Luskin School of Public Affairs; and Mark Vallianatos, co-founder of Abundant Housing LA and member of the Zoning Advisory Committee for re:code LA.

Please RSVP today, [here](#).

Share your sustainable advocacy actions with us

Has your Neighborhood Council recently submitted a sustainability-related Community Impact Statement or a Letter of Support? We'd like to share it with the rest of the NCSA community. Please email Torin Dunnivant at torin@atwatervillage.org with the board motion, a link/attachment to the CIS/LoS, and any other relevant info.

Get involved on an NCSA committee or working group

A strength of our alliance is our committees. Each NCSA committee -- from Advocacy to Programming, and from Energy Policy to Tree Health -- plays an integral role in growing sustainable and resilient communities across LA. Help us to achieve more impact by joining one of our many committees! Visit [here](#) to learn more.
