

You're invited! NCSA July 15 forum: Getting to 100% Renewable Energy in LA

It's been almost a year since the NCSA took its first formal advocacy position supporting Los Angeles moving off fossil fuels and transitioning to 100% renewable energy as quickly as possible. While City Council did pass a motion last year calling for LADWP to study the transition to 100% renewables, we want to update you on what has happened since then.

Please join us THIS Saturday, July 15 to hear from experts from Food & Water Watch, LADWP, NRDC, and Standing Together Against Neighborhood Drilling (STAND LA) and learn about the status of the study, what's next for LA, and how you and your Neighborhood Council can take action on initiatives to green our ports and curb neighborhood drilling.

We'll also have updates from the NCSA Trees and Leafblower committees, and there will be time for discussion and networking.

All are welcome, though space is limited, so [please RSVP today!](#)

Homeowners sought to host California Friendly Landscape workshops

Our friends at Selva International and Surfrider Foundation seek five homeowners in the LADWP service area to host two-day, Lawn Be Gone Hands on Workshops (HOWs), starting this autumn. As a host, you'll receive a fully installed California

Friendly Landscape at a very reduced cost, or even free. Want to learn more?
Please visit: <http://www.selvainternational.org/lawnbegone.htm>

Get involved with the NCSA!

A strength of the NCSA alliance is our committee participation. Every NCSA committee -- from Advocacy to Programming, and from Trees to Outreach -- plays a vital role in growing sustainable and resilient communities across LA. Help us to have more impact by joining one! [Contact us](#) to learn more.

The NCSA is a social benefit organization in affiliation with Social and Environmental Entrepreneurs (SEE), a non-profit public charity exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code.
