

Friend—

We hope to see you soon—maybe at CicLAvia this weekend or at our election forum October 13. See below for more information—

Election 2018 Forum Saturday, October 13

Come meet your fellow promoters of a healthy environment to discuss the implications of two sustainability-related items that will be on the November ballot: Charter Amendment B, which would pave the way for a public bank in the City of Los Angeles, and Measure W, which would facilitate stormwater capture in Los Angeles County.

We will also invite updates from our NCSA committees and member representatives.

Saturday, October 13

1–4 pm

Holman United Methodist Church

Speakers on the issues will include:

- Lauren Ahkiam—Director, Water Project, LAANE (Los Angeles Alliance for a New Economy)
- Madeline Merritt—Public Bank Los Angeles
- Jay Handal—Co-Chair, Neighborhood Council Budget Advocates
- Pamela Manning—Community and Government Relations Representative, Los Angeles County Department of Public Works
