

Dear NGPA Family,

We hope this finds you all healthy and upbeat as we continue to face the daily changes and challenges of the COVID-19 pandemic. Many of our members have already been faced with loss of work and other financial stresses in relation to the general economic slowdown this virus has caused worldwide. While no words can change the burden this places on all of us, we take solace in the fact that we truly are all in this together. Your NGPA Family is here for you and we will all see this through as a team.

Your leadership has been working hard to adapt our programming to better meet the needs of our members amidst this current landscape. With the help of our corporate sponsors and industry partners, we are pleased to be launching new educational content to help our members navigate through aspects of our new normal. With social distancing now a part of our everyday lives we are ramping up our local chapter events into the virtual world. We are also seeking volunteers to become mentors for the NGPA and get our mentorship program off the ground at a more accelerated pace.

Please look out for one another as we navigate this storm together. The bonds we have formed across our NGPA family will carry our organization and members through these tough times. Like we have said before, please do not hesitate to reach out to us if you have suggestions on other services which you think would be beneficial to our organization right now. We are always willing to catch up and hear from you. Be safe out there and continue to follow the guidance from the CDC and your local health departments. We look forward to a return to normalcy and to gather together again in person as an NGPA Family.

Thoughtfully,
