Chevron Donates \$230,000 to COVID-19 Response in Permian

Midland, Texas, March 27, 2020 — Chevron is contributing \$230,000 across Permian Basin nonprofits responding to the COVID-19 pandemic. Organizations receiving funding include the West Texas Food Bank and Eddy and Lea County United Ways.

Nathan Carroll, Chevron Operations Superintendent in Carlsbad, stated, “The COVID-19 pandemic is an unprecedented and evolving crisis that necessitates a community-wide response. Whether it’s an individual doing their part to social distance, a teacher facilitating tele-learning from their home, or a healthcare worker on the front lines, we want to say thank you to our Permian heroes. Chevron is proud to do our part.”

Funds from Chevron will go towards community COVID-19 response efforts, with a focus on food and housing security. “The West Texas Food Bank distributes food to children, families and senior through a network of 80+ partner agencies across 34,000 square miles of West Texas,” says Libby Campbell, executive director of the West Texas Food Bank.

Linda Dodd, executive director of the Eddy County United Way, said, “This donation comes at a time when our agency is going full throttle to fulfill our mission of meeting community needs, whether they be senior citizen meals, food for children and families, housing insecurity, and more. We see a long road ahead, and we can’t thank Chevron enough for this vital support.”

“Chevron and its legacy companies have operated in the Permian Basin for almost 100 years,” states Don Puckett, General Manager of Operations for the Chevron Mid-Continent Business Unit. “We have weathered many storms alongside our Permian communities, and we will weather this one the same way we have the others – together and with a focus on helping our neighbors in need.”

Chevron Corporation

Chevron Corporation is one of the world’s leading integrated energy companies. Through its subsidiaries that conduct business worldwide, the company is involved in virtually every facet of the energy industry. Chevron explores for, produces and transports crude oil and natural gas; refines, markets and distributes transportation fuels and lubricants; manufactures and sells petrochemicals and additives; generates power; and develops and deploys technologies that enhance business value in every aspect of the company’s operations. Chevron is based in San Ramon, Calif. More information about Chevron is available at www.chevron.com.
