2020 has truly been a year like none other. While we began with tremendous, even boundless optimism, we have worked for most of the year to adjust to new realities presented by an unsparing health pandemic. While these measures have been uncomfortable and difficult, we have recognized the value to our families, communities, and colleagues in limiting the spread of this devastating illness.

But even as New Mexico stayed home, our state stood up. Citizens, communities, businesses, non-profit organizations, and many others, sprang into action to aid our most vulnerable citizens, to supply and manufacture critical Personal Protective Equipment, and to support our frontline workers and essential personnel. People came together to help address immediate and long-term needs in support of pandemic recovery efforts across our state. NMOGA's own community fund, the Brighter Future Fund, followed their lead in targeting resources toward fighting hunger and ensuring food security for vulnerable populations.

New Mexicans' strength and resilience in response to these troubling times should be commended – not the least of which includes our medical professionals, first responders, and other essential personnel who have risen and performed remarkably at a time when we needed them most.

As the foundation of our economy, New Mexico's oil and gas industry has remained at work, powering families, businesses, and communities and keeping them on the move when necessary. Oil and natural gas production continued to set new marks throughout the year, and as a result of this hard work, oil and gas is again delivering for the state of New Mexico to the tune of $2.8 billion in fiscal year 2020. That includes almost $1.4 billion for public schools and higher education, $640 million for health and human services, and $157 million for public safety, among many other public spending priorities. These figures place oil and gas revenue near record levels, ranking only second to 2019's $3.1 billion.

The oil and gas industry is committed to New Mexico, and will continue to deliver the resources New Mexicans depend upon. Our statewide recovery is in sight, but for New Mexico to thrive once again we cannot abandon the pillars of communities and business that are vital to our state and its future. Working together, the oil and gas industry will continue to provide for New Mexico as it always has and will emerge stronger and more resilient than ever before.

Ryan Flynn | President and Chief Executive Officer, New Mexico Oil and Gas Association
NEW MEXICO OIL AND GAS CONTRIBUTIONS TO

The General Fund

Total contribution from oil and gas to the state budget:

$2.8 billion

IN FY 20

Accounts for

33.5%
of New Mexico’s state budget.

And an average of

32.5%
over the past decade.
NEW MEXICO OIL AND GAS CONTRIBUTIONS TO
The General Fund

Source: New Mexico Tax Research Institute: Economic Activity Supported by the Oil and Gas Industry in New Mexico
The oil and gas industry contributes over one-third of the funding for schools, infrastructure, healthcare, and public safety—more than any other industry in New Mexico.

- **Vital Infrastructure**: Oil and gas funds support the construction of new roads and highways to keep New Mexico on the move.

- **New Mexico General Fund**: Oil and natural gas industry supports over one-third, or $2.8 billion, of the state’s annual budget.

- **Funding Local Schools**: Students and teachers receive nearly $1.4 billion each year to support New Mexico’s schools.

- **Public Safety**: Oil and natural gas help New Mexico put more public safety officers on the streets, keeping our communities safe.

- **Energy Security**: Producing oil and natural gas in New Mexico makes America less reliant on other countries for our energy needs.

- **More Jobs**: Tens of thousands of New Mexicans are employed as a result of oil and natural gas production.
