

# Pasture Raised Food Club

## PRIVATE MEMBERSHIP AGREEMENT<sup>1</sup>

**I AM NOT PLANNING TO, NOR WILL I,** entrap, investigate, prosecute, hurt, or otherwise gather information for any agency, corporation, or other entity to negatively affect the Pasture Raised Food Club (hereafter "Club") members or the farmers of this Club in any way.

**I ATTEST** that as a citizen/member of this Club, I insist and demand the following:

1) my food is untouched and unexposed to any industrially produced cleanser, antiseptic, or detergent, including bleaches, citric acid, anti-bacterials, and anti-fungals;

2) my food is untouched by any gases from 1 above, including but not limited to chloroform;

3) my food is not treated to remove natural microbes normally found in food, including but not limited to salmonella, E.coli, campylobacter, listeria, gangrene, and parasites;

4) my eggs are unrefrigerated and unwashed from the chicken;

5) including but not limited to the following, meats, milk, fresh vegetables, eggs, and juices are not subjected to temperatures above 99 degrees Fahrenheit nor exposed to radiation.

**I FULLY UNDERSTAND** that this different paradigm of food standards opposes all statutory administrative standards for food preparation, storage, and safety. As a member of this Club, I refuse administrative food standards of the FDA, USDA, and all other public, bureaucratic impositions on private<sup>2</sup> activity. America's heritage of *proven* Christian character plus demonstrable competency is the utterly simple recipe that produces credibility and therefore TRUST. I do not consent to being compelled by force or threat of force by professional accusers. Food regulators enforcing man-made administrative law are professional accusers when encroaching on private associations.<sup>3</sup> Thus, such professional accusers are disqualified for their lack of competency in assisting people in the excellence of bodily health.

Therefore, I trust the farmer and members of this Club to properly oversee and manage the preparation, handling, and packaging of the food, including but not limited to raw meat, raw eggs, raw produce, raw juices, raw dairy, cold-pressed oils, unheated honey, and prepared raw foods, exactly as they see proper and fit.

**I HAVE JOINED THIS MEMBERSHIP** because administrative food regulations cause chemical contamination that has been found to damage health, immediately and cumulatively. I reject administrative sanitation standards for food storage and display. I accept the primitive building structures that exist on the properties for this Club. They do not cause any impairment to food safety or quality and help keep costs lower for obtaining my preferred food.

---

<sup>1</sup> **Right to make agreements/contracts:** Protected by the U.S. Constitution, Article I, Section X, Clause IV: "No State...shall make...any...Law impairing the Obligation of Contracts...."

<sup>2</sup> **Private Property:** This agreement is property. "Property is the exclusive right of possessing, enjoying and disposing of a thing." —American Dictionary of the English Language, 1828 Edition.

<sup>3</sup> **Freedom of association:** Protected by Amendment I, Bill of Rights, U.S. Constitution.

**"HEALTHY FOOD" SHOULD BE A SLOGAN** and fulfillment by every agricultural and health department. Since it is not, I declare herein that under common law of the several states, I am, as part of this membership Club, independent of any administrative food regulations and associated health and food regulative bodies. Therefore, I hereby *retain*<sup>4</sup> and refuse to waive all my fundamental, God-delegated duties, announced to the world by America's Declaration of 1776 *and* protected by the United States Constitution and the constitution of any state or territory pertaining to any controversy at law.

Any administrative body that makes any attempt to regulate food preparation for this Club does so illegally and is interfering with and denying me the ability to obtain the food I require to maintain or improve my health and is depriving me of my common-law rights. Accordingly, I refuse to testify against any and all members of this Club in any administrative proceeding. However, I will testify against administrative officers and employees who interfere in any manner with this Club, its members, and its membership.

**BY MY SIGNATURE BELOW**, I join this membership and testify that I have thoroughly read and agree to all of the above. Payment of Thirty-Three Dollars (\$33) is due upon joining and annually in January. This agreement bestows to me an undivided interest in herds and flocks and all products and services acquired for distribution on behalf of the Club. Renewal of the membership fee will be due every January no matter when my membership begins during any given year.
