

Are Our Hospitals Overwhelmed?

Fear

Due to the COVID-19 pandemic, our hospitals could become overwhelmed and people would not get proper healthcare.

Fact

Ontario has faced “hallway healthcare” for decades. Our hospitals have been overcapacity due to poor management and administration, yet today in a pandemic, most hospitals are below capacity and have fewer patients. Due to COVID-19 restrictions at hospitals, many people are prevented from receiving proper medical treatment for other illnesses.
