SIGNUP

- At the site, verify your name and select a username. **This should be your GROUP NAME.** Keep in mind that people will see this name. Additionally, enter a password and then click ACTIVATE ACCOUNT.
- You'll then be in the site. Let's look at events in your area or create a new event. To do so, click Events. Here, you'll see a list of events and be able to search for one that meets your needs.

What Now?

Click Host Your Own Event. You don't need to finish this now, but this is where you create new events. For example, you want to inform your members about an upcoming city hall meeting, or want to enter a demonstration.

You can also write blog posts or read posts from others. To access these, click on Action and then click on Blogs.

You get points for the various things you do on the site, like writing blog posts and creating events in your area. To see your points, click on IN IT TO WIN IT and then you'll see your total points. Eventually you'll be able to trade these points in for services from NotOnMyWatch Ambassadors and Volunteers.

If you like what we enable you to do, you can also use PUT YOUR MONEY WHERE YOUR MOUTH IS in the menu to send us a destination.

Now that we've given you a platform, it's up to you to go out there in the world and make a difference. We'll do everything we can to amplify your cause and help you make positive change in the world. Stay tuned for more on what that entails!
