To the Managing Director of <INSERT COMPANY NAME>

I am writing to express my concern regarding our company's involvement in the WestConnex toll road. The WestConnex toll road project will damage our health, our heritage, our homes, our community and our climate.

WestConnex will not solve traffic congestion. All around the world city planners are turning away from major urban road projects as it is clear that more roads equals more traffic. Examples of responses by other global cities to traffic congestion demonstrates that the WestConnex toll road is in stark contrast to the types of projects that have been used to address congestion in other global cities. Even the data produced by the Sydney Motorway Corporation and the Baird Government has shown that the toll road will reach capacity within less than a decade of being operational.

The financial aspects of this project should be cause for our company to reconsider support for WestConnex. The \$3.5 billion federal funding previously committed by the Abbott government is under investigation by the Australian National Audit Office. The cost of the project has blown out from \$10 billion to \$16.8 billion, delays in the project, changes to the route and the addition of a new tunnel in Rozelle will lead to continually rising costs.

I believe that \$17 billion in public and private investment could be much better spent on NSW's public transport, education, rural & regional infrastructure, health, housing, environment and other projects which contribute to the social good of our communities - and that these are the types of projects <INSERT COMPANY> should be involved in. I do not believe there is sufficient evidence that WestConnex will achieve its stated aim of solving Sydney's traffic problems. And I believe that the shareholders of <INSERT COMPANY> would strongly support a new direction of our company committed to projects of social good, rather than poorly planned, unnecessary and expensive road projects.

As a shareholder of <INSERT YEARS> I want you to unequivocally rule out future involvement with the WestConnex toll road and associated works. I want you to end our current relationship with the project and I want you to make this commitment directly to me, as well as publicly. If you do not make this commitment, I will be forced to withdraw my investment in <INSERT COMPANY> and take my money to a company that isn't involved in creating a polluting toll road, climate change and environmental destruction.

Our corporate social responsibility mandate outlines that <INSERT CSR QUOTE>. If <INSERT COMPANY> truly seeks to create a better world for our community and our environment, there should be no question about severing the ties we have forged with the WestConnex toll road project.

I look forward to hearing back from you very soon.
