

Tell MPP Belinda Karahalios no privatization and cuts to health care

**BELINDA
KARAHALIOS**
Progressive
Conservative

Belinda Karahalios is making things worse in Ontario by:

- Planning to create a health care “Super Agency” that can force mergers and closures of hospitals, long-term care facilities, and community health centers, and allow privatization that will only benefit the rich.
- Planning to limit access to programs and services for children with autism.

Belinda Karahalios has already:

- Cut mental health care funding by \$335 million per year, leaving Ontarians in crisis.

- Restricted access to pharmacare for young people, so families with sick kids are hit the hardest.
- Failed to improve rules that give long-term care workers only six minutes to get care residents ready for the day including waking up, washing, moisturizing, dressing, and going to the washroom.

We have a voice. Be part of the **POWER OF MANY.**

Tell Belinda Karahalios “Everyone deserves access to high-quality health care regardless of their age, where they live, and how much they earn.”

FACTS:

- Ontario’s spending on public services per person is the lowest in Canada.
- Ontario spends the lowest amount per person on health care in the entire country.
- Ontario funds public hospitals at the lowest rate in Canada and has the fewest hospital beds per person of any province.

Let **Belinda Karahalios** know that everyone needs good public health care. You can **visit** her at her office. You can **phone** her. You can **email** her.
