YES! I want to join the Oil & Water Don't Mix campaign and send a message to Governor Snyder to Keep Oil Out of the Great Lakes!

Dear Governor Snyder: An oil pipeline running through the Straits of Mackinac is putting the Great Lakes at risk. Our state is allowing the pipeline to operate despite questions about whether Enbridge, the pipeline owner, is complying with the terms of its 1953 easement or laws to protect the Great Lakes. We the undersigned urge you to make all information about the pipeline available to the public, and require that Enbridge immediately:

- Share with the public and the State detailed information about the contents, use, and safety of the pipeline.
- Comply with all terms and conditions of the existing easement.
- File an authorization application under the Great Lakes Submerged Lands Act to secure state permission for activities on state-owned public trust bottomlands.
