

To MPP Lisa Thompson :

Ref : Paid Sick Days Save Lives

Until we make it possible for every worker in Ontario to stay home if they are sick, we won't be able to stop the spread of Covid-19. Workers should not have to lose income if they stay home with symptoms or are waiting for the results of a Covid test.

Without paid sick days, we will see more outbreaks, more infections, and more avoidable deaths.

Across Ontario, municipal leaders, nurses, physicians, public health experts, local boards of health, workers, and business owners are all calling for provincially legislated paid sick days. It's past time to listen to them and pass Bill 239.

We call on you to support Bill 239, the Stay At Home If You Are Sick Act, pending second reading in the Ontario Legislature.
