

Coverage needed for Braces

To the Legislative Assembly of Ontario:

WHEREAS, there is currently no universal dental coverage for braces for low-income children;

WHEREAS, children who are in need of braces are less likely to smile because they are ashamed of their teeth or are afraid to be teased by their peers;

WHEREAS, one's ability to smile is directly related to their overall quality of life;

WHEREAS, children with significant sensorial issues related to development disabilities cannot wear metal braces because of unmanageable pain;

We call upon the Minister of Health and Long-Term Care to review and amend the dental coverage policies under Healthy Smiles Ontario to include coverage for braces, in general, and for Invisalign braces when a child has significant sensorial issues that prevents them from wearing metal braces.
