

SUSTAINABLE HEALTHCARE IN AOTEAROA-NZ

Friday 24th November 2017

University of Otago Wellington
School of Medicine Small Lecture Theatre
23 Mein St, Newtown, Wellington
9.30am-4.30pm
Light morning tea & lunch provided

Human health relies on a healthy planet – health care without harm?

Environmentally sustainable healthcare has the potential to save money, boost health, and to show that health is a leader in NZ's efforts to meet targets under the Paris climate change agreement. Come and learn with international and national leaders in this field

Participation by Zoom webinar or livestream will be possible
