2016 General Election  
Pacific Green Party

**NOW** are you ready for an alternative to business as usual?

**STILL** think the "two-party" system is serving us well?

**HAPPY** with the electoral system which produced the two most distrusted presidential candidates in the history of the United States?

No other election could demonstrate the flaws of our political system better than the match up of Donald Trump and Hillary Clinton. Mr. Trump is a racist and a demagogue. Mrs. Clinton is an unabashed war hawk and the darling of Wall Street. Both came to be the nominees of two corrupt political parties through a badly flawed, undemocratic election process.

## THE POLITICAL REVOLUTION CONTINUES WITH THE GREEN PARTY

In fact, it started with us. The Green Party has been at the forefront of political reform in Oregon, in the U.S., and around the world. Greens in Oregon have served as city councilors, mayors, commissioners and on the bench. Greens hold seats as Ministers and Members of Parliament around the world and have led the way on cutting edge issues such as climate change, electoral reform, health care for all, marriage equality and ending the War on Drugs. Today we call for:

### Protecting Our Planet:

Clean air and water. No LNG pipelines or terminals. Stop coal and oil trains. Reduce pesticide use. End destructive logging, energy extraction: fracking, tar sands, offshore drilling, mountaintop removal, and uranium mines. Enact a Carbon tax. Label GMOs and put a moratorium on GMOs. Create millions of jobs by transitioning to 100% clean renewable energy and invest in public transit, sustainable agriculture, and conservation.

### Education as a Right:

Abolish student debt to free a generation of Americans from debt servitude. Guarantee tuition-free, world-class public education through university level.

### Health Care as a Right:

Establish an improved "Medicare for All" single-payer public health insurance program for everyone.

### Empower the People:

Abolish corporate personhood. Enact electoral reforms for true democracy: public campaign financing, ranked-choice voting, proportional representation, and open debates.

### Ending Poverty:

Guarantee economic human rights, including access to food, water, housing, and utilities, to ensure every American a life of dignity.

### Peace and Human Rights:

Establish foreign policy based on diplomacy, international law, and human rights. End the wars and drone attacks, cut military spending by 50% and close 700+ foreign military bases. Lead on global nuclear disarmament.

### Racial Justice Now:

#BlackLivesMatter. End police brutality and mass incarceration. Create a Truth and Reconciliation Commission to eliminate the legacy of slavery that continues as pervasive racism. Give communities control over their police. Demilitarize the police.

### Justice for All:

Terminate unconstitutional surveillance, end persecution of whistleblowers, abolish secret kill lists, and repeal indefinite detention without charge or trial.

### A Just Economy:

\$15/hour federal minimum wage. Break up "too-big-to-fail" banks. Develop cooperatives, public banks and public utilities. Make Wall Street, big corporations, and the rich pay their fair share of taxes. Replace corporate trade agreements with fair trade agreements.

### Freedom and Equality:

Expand women's rights, protect LGBTQIA+ people from discrimination, defend indigenous rights, and create a welcoming path to citizenship for immigrants.
