Candidate Statement

2016 General Election
Jill Stein

Occupation: Physician

Occupational Background: Physician

Educational Background: Harvard Medical School, MD

Prior Governmental Experience: Lexington, MA Town Meeting Representative

Dr. Jill Stein, the Green Party's 2012 candidate for President, holds the current record for most votes ever received by a woman candidate for President in the general election. She is a mother, an organizer, and physician. She has helped lead initiatives to fight environmental racism and injustice, to promote healthy communities, to strengthen local green economies and to revitalize democracy. She has helped win victories in campaign finance reform, racially-just redistricting, green jobs, and the cleanup of incinerators, coal plants, and toxic threats.

Power to the People Plan

Jill's plan creates deep system change, moving from the greed and exploitation of corporate capitalism to a human-centered economy that puts people, planet and peace over profit. It empowers people to fix our broken political system and make real the promise of democracy.

A Green New Deal:

Create millions of jobs by transitioning to 100% clean renewable energy by 2030, and investing in public transit, sustainable agriculture, and conservation.

Jobs as a Right:

Create living-wage jobs for every American who needs work, replacing unemployment offices with employment offices. Advance workers rights to form unions, achieve workplace democracy, and keep a fair share of the wealth they create.

End Poverty:

Guarantee economic human rights, including access to food, water, housing, and utilities, with effective anti-poverty programs to ensure every American a life of dignity.

Health Care as a Right:

Establish an improved "Medicare For All" single-payer public health insurance program to provide everyone with quality health care, at huge savings.

Education as a Right:

Abolish student debt to free a generation of Americans from debt servitude. Guarantee tuition-free, world-class public education from pre-school through university. End high stakes testing and public school privatization.

This plan will end unemployment and poverty; avert climate catastrophe; build a sustainable, just economy; and recognize the dignity and human rights of everyone.
