

ARTS THERAPIES *for* Children

ATFC is pleased to be able to offer tailored one-on-one therapy provision for the children who need supporting the most.

All sessions are subsidised and run weekly during the academic year, up to a maximum of 30 sessions per pupil. Each session lasts approximately 50 minutes.

Arts therapies can be effective tools in helping children manage a range of issues, including ADHD, ASD, anxiety, social, emotional, physical or sexual abuse, mental health, parental divorce and looked-after children.

All of the therapists we work with are experienced and qualified in a range of issues and settings and consistently achieve positive outcomes for the children, their families and the school.

During these unprecedented times, we have been provided with additional funding from the Coronavirus Community Support Fund, distributed by The National Lottery Community Fund to help children who have been adversely impacted by the effects of COVID. All therapy sessions will be conducted according to the latest Government guidelines and in a COVID-secure manner.
