Diversity & inclusion in schools should not be difficult...#SOGI123 #educate #sd78 @LenoraPoulin

INTRODUCING SOGI FROM K-3 *USE "STORY TIME" OR VISUALS TO FACILITATE TOPICS

- Diversity means different, we are all different and unique.
- Diversity is something we celebrate!
- There are many different types of families.
- There are no such things as "boys toys" or "girls toys" There are only toys and the destiny of a toy is to be played with!
- ✓ There is no such thing as "boys clothes" or "girls clothes". People should wear the clothing that they feel comfortable in.
- Gender is a spectrum. Some people identify as girls, some as boys, some as neither boy nor girl and some as both boy and girl. This is different than what your parents/teachers have been taught and something that you may need to teach them!
