

Mission

Pathways to Aviation introduces, inspires, and engages young people toward aviation careers.

Vision

Pathways to Aviation will serve as the engine to leverage legacy programs, instruction, and partnerships to facilitate both college preparation and aviation labor force growth.

Programs

Nevada Aviation Careers Program

The Nevada Aviation Careers Program provides career development resources to high school and college students interested in pursuing careers in the aviation industry. The program provides guidance and connections to those expressing interest in aviation careers. Students will be immersed in a structured program to guide through the career development spectrum.

Pathways Days Program

We're coordinating "aviation days" at airports and aviation-related businesses throughout Nevada. Labeled as "Pathways to Aviation Day at _____," these events will be tailored to schools to conducted field trips at location.

Scholarships

Provide funding, particularly tuition-assistance funding to students seeking degrees or certifications. Two funds exist: 1) Fred Michel Scholarship Fund, which supports college students; and, 2) General Scholarship Fund, which provides unrestricted funding.

Aviation Job Connections

Pathways to Aviation provides opportunities for those seeking jobs in the aviation industry. This includes writing recommendation letters, serving as references, notifying candidates of open positions, and featuring a job board on our website.

Affiliate Support

By working with groups that share our aviation-related educational focus, we are able to pool our resources, and focus on our common goals of motivating local students to pursue careers in aviation. Pathways has allocated funds specifically for distribution through a grant application process to support aviation related programs in local communities, throughout the state.

Other

Pathways to Aviation has become a recognized leader in the aviation industry.

- ✓ The organization and/or its leaders are frequently asked for feedback and participation in various programs and industry situations.
- ✓ We're asked to participate in conference and meeting presentations, school district or school career events, event management assistance, and more.
- ✓ We've been asked to help write aviation curriculum for schools throughout the state of Nevada.
