

Futures in Aerospace Program

FLIGHT PLAN 2020 SUPPORT OPPORTUNITIES

Pathways to Aviation provides solutions to the aviation industry's growing workforce needs by informing, inspiring, and engaging its future labor force.

The Futures in Aerospace program connects students to industry, aviation executives, and college and career opportunities. Students obtain an understanding of their hard and soft skills, articulate those skills on their resumes, share the skills and passions through face-to-face interactions, and develop strong relationships with aviation leaders.

- We're addressing workforce shortages in a many ways, including:
- Empowering a new generation of aviation experts and leaders.
 - Awarding scholarships to students attending collegiate and specialty instruction.
 - Fostering 100% of hiring from local and nearby locations.
 - Conducting career-readiness workshops for high school and college students.
 - Hosting networking receptions, connecting aviation executives and recruiters to job and internship-seeking students.

The Futures in Aerospace program connects students to industry, aviation executives, and college and career opportunities. Students obtain an understanding of their hard and soft skills, articulate those skills on their resumes, share the skills and passions through face-to-face interactions, and develop strong relationships with aviation leaders.

Flight Plan 2019 was an incredible success. Students from 25 different schools learned from 28 speakers, networked with 67 professionals, and established 211 total relationship connections.

Additional Figures

- ◆ **4** internships offered.
- ◆ **75%** of students plan to pursue careers in aviation.
- ◆ **100%** of students feel more confident to pursue jobs in any industry.
- ◆ **100%** of professionals noted that students were prepared for the networking event.

The career development workshops are conducted at airports and aviation-related businesses in three locations: Reno NV, Carson NV, and Truckee CA. They feature aviation executives, who share their experiences, descriptions of their company specialties, overviews of hiring practices, and career-focused advice. In addition, students receive career planning best practices, such as skills identification, resume writing, interviewing tips, and networking instruction.

The career mentoring workshops are conducted at airports in three locations: Reno NV, Carson NV, and Truckee CA. They feature aviation executives, who share their experiences, descriptions of their company specialties, overviews of hiring practices, and career-focused advice. The workshops build towards the popular professional networking receptions, where aerospace and business leaders spend quality time with career-aspiring students.

Sponsorship opportunities are available for Flight Plan 2020 to provide the workshops, receptions, mentoring, and career readiness resources to high school and college students.
