

You're Invited

to meet the next generation of aerospace leaders.

Pathways to Aviation is hosting three special receptions during its second annual Aviation Career Week. The receptions will connect aerospace leaders, business professionals, and community leaders with career-minded high school and college students.

We hope you join us at one or more of these impressive receptions.

Aviation Networking Night receptions.

Each event starts at 5:00pm.

May 14 – Reno – Advanced Aviation

655 South Rock Boulevard

May 15 – Carson – Carson Airport

2600 College Parkway

May 16 – Truckee – Truckee Tahoe Airport

10356 Truckee Airport Road

Please RSVP at www.pathwaystoaviation.org/acw2019 at your earliest convenience. While there's no cost to attend the event, we need to make arrangements to facilitate the networking, scholarship presentations, and any hospitality plans.

The receptions are the culmination of aviation career mentoring workshops, which have taken place on a monthly basis since January. Students have prepared for these receptions, enabling them to engage in meaningful conversations, describe their career aspirations, and showcase the skills they learned during the workshops. It's an ideal way to shake hands and speak with the aerospace industry next generation.
