

TAKE ACTION WITH PHILLY THRIVE

PES, What Will You Choose?

WHEN: Tues. March 22, 11:30am

WHERE: Comcast Plaza, 17th and JFK

Take action with the growing movement of Philadelphians demanding our Right to Breathe from the largest oil refinery on the east coast, located in South Philly.

The refinery's owner, Philadelphia Energy Solutions (PES), plans to expand by building an oil port on the Delaware waterfront. The port will bring millions more barrels of oil to Philadelphia, putting our health, safety, and future at risk.

PES is already poisoning our city - we won't take any more!

On March 15 join Philly Thrive as we give PES a choice: will they continue plans to build a polluting oil port, or will they acknowledge our right to breathe?

We're asking PES to revoke its oil port proposal by May 7. If they don't, we pledge to take nonviolent direct action to reject their plans to expand.

By refusing to let PES expand, we are building power towards winning health reparations, a pollution cap, and climate jobs from PES.
