

PJTN Western Australia, submitted by Brian Warburton Chapter Director

- January 2021 – Corresponding with West Australian Jewish and Christian council regarding PJTN objectives and keeping reports from same.
- Noting reports from the Australian Jewish society.
- It has been a quiet start to 2021 because of the lock downs due to Covid 19 restrictions.
- The State election was completed on Saturday 13th March and the results were not good. The Labor Party similar policies to the Democrats in the U.S. were returned to Government in a resounding majority win. The reason for the big win can be directly related to the closure of the Western Australia border last year giving the Labor leader the status of saviour in the eyes of a gullible public. Fear is a major tool of the radical left. Now we face 4 years of left-wing government and the “woke” crowd are pulling the strings.

Respectfully submitted,
Brian Warburton

Western Australia Director
