

PJTN Western Australia, submitted by Brian Warburton Chapter Director

Q1 Update: February and March 2021

Campaign and manning of voting stations for the Australian Christians. I stood as a candidate for the State Legislative Assembly in the seat of West Swan West Australia. Unfortunately, although our numbers improved from the 2017 election, we were not successful at gaining election.

Q2 Highlights:

13th April 2021 Letter written to Principle Sheereen Kindler, Glen Eira College, Victoria, regarding false information in textbook, as follows including reply from the Principal.

Dear Principal Kindler,

It has recently come to my attention that a particular textbook was made available to the students at your college. The book Jacaranda Humanities Alive 7 (second edition) contains offensive and false information about the Jewish people. As West Australian Director of Proclaiming Justice to the Nations and a Christian, I am bewildered that such a textbook can make its way into your classrooms. Surely you have a screening system for all new textbooks. The Jewish community has faced persecution both verbal and physical for centuries and one would think that in our modern “civilised” society there would be no room for such bigotry. Proclaiming Justice to the Nations (PJTN) is a worldwide organisation committed to calling out antisemitism which is on the rise in Western cultures. Our Founder/President Laurie Cardoza-Moore has requested me to contact you to ask if you will please vet any future books that contain defamatory and misinformation about the Jewish people. We at PJTN are sure that you will in all good conscience make it clear to the students that the “Jews” did not kill Jesus, this is a preposterous accusation that has been used over the centuries by violent anti-Semitic regimes such as the Nazi’s in World War II.

Thank you for taking time to read this email and we at PJTN are sure that your good self and your staff will take immediate action to prevent this happening in the future.

Yours Faithfully,
Brian Warburton Director PJTN WA

Reply – Thursday 22/4/21 11.20am. Received a personal phone call from Principal Sheereen Kindler- Glen Eira College Victoria.

Principal Kindler apologized that the passage in the book published by Jacaranda stating that the Jews killed Jesus had slipped through the vetting system. Sheereen assured me that the College are totally against any antisemitic views and supports movements such as PJTN. Sheereen also advised that the school is the only College that teaches Hebrew in Victoria.

Wednesday 16th June 2021 attended Rally for Life outside West Australian Parliament House. 2000 people attended most encouragingly by many young folks. Speakers from Australian Christians, Family Voice, and ProLife WA.

Joined Webinar 1: Sunday 20 June 2021, 3:00pm–4:30pm for an organised presentation by the International Council for Christians and Jews. WA's contribution, scheduled from 2:00pm–2:30pm, showcased the past 25 years of our interfaith activities.

24th June 2021, I sent the following letter to Hon. Grace Grace, Minister for Education Queensland Australia, referring to a satanic cult attempting to teach cult practices in Queensland state schools. The Minister Hon. Grace made a media statement that there is no way this will happen in the Queensland Education system; however, the Noosa Satanic cult are taking their attempts to teach in the schools under the freedom of religions act to the Supreme Court of Australia.

My letter and response following.

24/6/21

Honourable Grace, Minister for Education.

Dear Honourable Minister Grace,

I want to thank you on behalf of "Proclaiming Justice to The Nations" org, for your stand against the Noosa satanic cult attempting to bring their teaching to the Queensland Schools. We at PJTN are an international organisation making a stand against antisemitism and anti-Christian sentiments which at times result in violence against Christians and the Jewish people. It is obvious that any person can create a "religion" and claim it is beneficial to the community, but as you have observed not every so called "religion" is beneficial or helpful in promoting a favourable and safe community environment. Unlike most world religions the Satanists have no history written or verbal that instils hope and future peace. They conceive their "religious" practices to suit their own agenda which is usually to do with fulfilling some imaginary fantasy. So again, thank you for your stand against this destabilizing group and PJTN support you in your decision. We wish you well and every success in your very important position as Minister of education.

Yours Sincerely.

Brian Warburton. Director of Proclaiming Justice to the Nations West Australia
