

Dear Florida PJTN Donors and Volunteers:

On behalf of our entire organization, I would like to extend thanks to all of you who have given support to PJTN in the past. For those who are not familiar with me or my social media postings, I would like to introduce myself to all in Florida who have played a part in our fight against antisemitism in the United States and abroad.

If you have received and read the emails that PJTN has sent out in recent months, you are aware that the scope of our national campaign, *Taking Back America's Children* has broadened over the past year through the establishment of state chapters. The goal is to promote the mission of PJTN more effectively where it is most needed: At the grassroots level, state-by-state, county-by-county, school district-by-school district.

The PJTN model just produced a stunning victory in Virginia. Parents tired of being labeled “domestic terrorists” and told they should have no say in what their children are being taught, arose with one voice to say “NO!” That grassroots effort to regain control produced a complete turnaround on the educational future of their children. We must mobilize concerned parents and patriots state-by-state to see repeated victories like Virginia!

We are taking on the monumental challenge to answer the call of the vital mission at hand. PJTN has made great headway in Florida, but we need your support now more than ever. We are looking for State Directors to meet the same challenges on a statewide basis. Florida is a big state with 67 counties and 74 school districts. I am reaching out, encouraging your continued financial support of PJTN, and inviting you to go a step further. Please consider becoming a State Director, or volunteer to spread our mission by taking an active part in the process of education, legislation, presentations, research and PJTN action committees.

We are creating an organized network of Floridians working together to stay the hand of the insidious, ever-present threats from the “woke” culture curriculum and the antisemitic and racist Black Lives Matter playbook to the nationwide spread of the Marxist inspired Ethnic Studies Model Curriculum already adopted in California classrooms. Our PJTN curriculum plan has already been implemented in Florida Civics and Holocaust standards with great success, but the ongoing fight against the assault on our children’s minds will make the Sunshine State a key ongoing priority for us in 2022.

We cannot wait to wage an active campaign within our children’s schools. Under the guise of “racism” and “social justice,” legislators, publishers, “educators” and Marxist advocates are busy implementing new curriculum to further captivate our children’s minds with a false narrative, leading to social and spiritual unrest. With the onset of COVID-19, America has experienced tyranny in our country unlike any we have seen in this generation and with it has come more racism and antisemitism than ever before.

I implore each of you to consider going a step further - commit to continue support of PJTN’s mission through action where you live. There are thousands of concerned Floridians who need to know about *Taking Back America's Children* and how they can join forces to make a difference.

Please review the list of the many areas of opportunity to serve on the following page. If you feel called to join PJTN in this important mission, or if you have any questions, please contact me at: info@pjtn.org. I look forward to hearing from you.

Blessings,

Laurie Cardoza-Moore
