
NEW YORK HEALTH ACT

GUARANTEED HEALTHCARE FOR ALL

Our profit-driven health insurance system wastes **billions of dollars** in administrative costs, fraudulent billing and corporate earnings—all while leaving **over a million New Yorkers uninsured and many more underinsured.**

We need to fight back against the congressional attacks on affordable healthcare nationally and organize in New York for a healthcare system **that guarantees coverage to all of us.**

By taking for-profit private insurance companies out of the equation, the New York Health Act would extend coverage to all New York residents and streamline the delivery process, all while **saving us billions per year.**

NEW YORK HEALTH IS A UNIVERSAL, COMPREHENSIVE PLAN THAT WOULD:

Provide quality care to every New Yorker regardless of immigration status, income, wealth or employment status.

Eliminate financial barriers to healthcare—i.e., no out-of-pocket costs, premiums, copays, deductibles, coinsurance or out-of-network charges.

Cover all medically necessary care, including dental, vision, mental health and reproductive care.

WHO PAYS WHAT

The New York Health Act would fund healthcare coverage for all New Yorkers, including those currently on Medicaid and Medicare, so current federal payments toward these programs will be part of the funding.

Much of the rest will come from income-based payroll deductions. These deductions will completely replace the costly premiums, deductibles, copays and coinsurance currently charged by private insurance.

MONTHLY DEDUCTIONS			
INCOME	EMPLOYEE	EMPLOYER	SELF-EMPLOYED
<\$25,000	\$0	\$0	\$0
\$50,000	\$38	\$150	\$188
\$100,000	\$133	\$533	\$666
\$400,000	\$900	\$3,600	\$4,500

There will be similar progressively graduated deductions based on other taxable income, such as capital gains, interest and dividends. These will affect people with high income from those sources.
