

**PROGRESSIVE MASSACHUSETTS  
2020 LEGISLATIVE  
ENDORSEMENT QUESTIONNAIRE**

**Date:** 5/10/2020

**Candidate:** Mike Dooley

**Office Sought:** State Representative, 12th Norfolk

**Party:** Democratic

**Website:** [www.votedooley.com](http://www.votedooley.com)

**Twitter:** @MikeForRep

**Facebook:** <https://www.facebook.com/votedooley>

**Instagram:** @votedooley

# OVERVIEW

***We view our questionnaire as an educational resource, for both candidates and voters, on progressive approaches to the issues. It provides candidates the opportunity to address a number of important issues beyond the surface talking points, which progressive voters find extremely valuable when making a decision.***

Our Questionnaires starts with an "About You" section and ends with an opportunity for you to include additional remarks beyond what we asked.

The bulk of our questionnaire is focused on the issues outlined in our [Progressive Platform](#), which also inform our [Legislative Agenda](#). We are interested in your overall philosophy as well as your views on specific policy and legislation.

Each section features charts or graphs (with links to sources) that illustrate one or more facets of the issue under discussion.

**We encourage you to expand your answers beyond "yes/no" in the additional comments space provided on the form, but please keep answers < 150 words.**

**Issue Subsections:**

- A. Revenue and Taxation
- B. Jobs and the Economy
- C. Education
- D. Health Care
- E. Housing
- F. Racial and Social Justice
- G. Good Government and Strong Democracy
- H. Sustainable Infrastructure and Environmental Protection

*Our questionnaire is comprehensive and will take time to complete. Please develop your answers in a separate document before inputting them into the submission form.  
([progressivemass.com/questionnaire](http://progressivemass.com/questionnaire))*

## **I. About You**

### **1. Why are you running for office? And what would be your top 3 legislative priorities if elected?**

**MD:** We need more young people in elected office. I am running for State Representative because Beacon Hill is in a state of disarray. Our district is faced with some serious challenges in education, transportation, and climate change. The 12th Norfolk District deserves an accessible, proactive, progressive State Representative to be a leader, fighting for the issues that matter to working-class people. I believe that the first job of a State Representative is to be active in the community they represent, to see and hear what matters most to the people who live there, and the State Representative should be "representative", of the community they serve.

### **2. What prepares you to serve in this capacity?**

**MD:** I am a local elected official on Town Meeting and serve as the Membership and Outreach Director for the Young Democrats of Massachusetts. I'm prepared to serve as State Representative because I have valuable experience working in the State House. I've been an activist and have lobbied for progressive legislation on numerous occasions, most recently the ROE Act. I know the job from my experience running campaigns and serving as a staff member. I am more than comfortable standing up and continuing the fight for progressive values, long after we think the fight has been won, to make sure we keep our word. I know what it will take to not just build a progressive legislature, but an entire progressive movement.

### **3. What do you view as the biggest obstacles to passing progressive policy at the state level?**

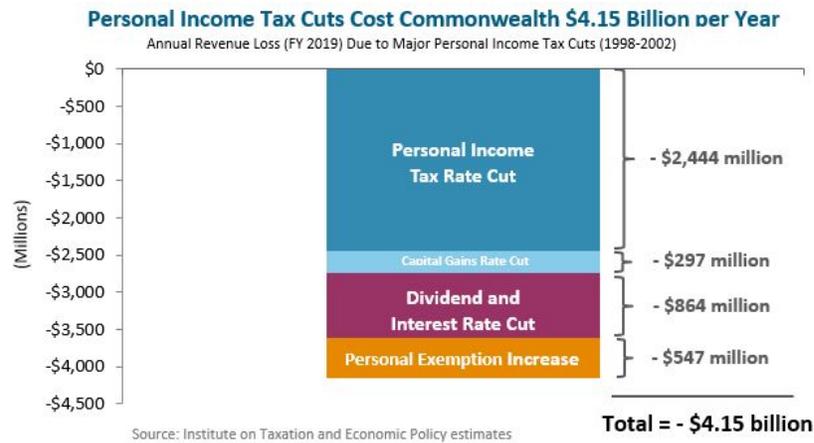

**MD:** Career politicians who have spent most of their lives in this office are a major obstacle. My opponent has been in office for nearly 30 years, and he is a part of the problem, especially since he is extremely conservative and has sponsored anti-choice and anti-LGBTQ legislation. I am progressive and I am willing to stand up and fight tooth and nail until we get the changes and reforms we need on Beacon Hill.

## II. The Issues

### A. Revenue and Taxation

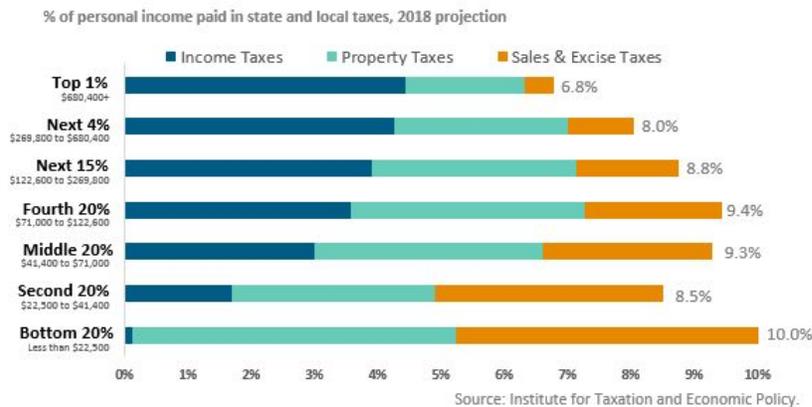

Between 1977 and 2016, Massachusetts [reduced state taxes](#) by more than all but two other states. Because of income tax cuts enacted between 1998 and 2002, Massachusetts loses over \$4 billion in tax revenue *each year*--\$4 billion that is not invested in our roads, bridges, schools, parks, and services, all of which have historically been part of why MA is a great place to live. Such cuts to the state income tax have meant increasing reliance on fees, as well as sales, gas, and property taxes, exacerbating the overall regressivity of the system. Regressive taxation strains low- and middle-income families, and reduced revenue collection curtails our ability to invest in vital infrastructure. It also restricts legislators' ability--and willingness--to pass new and visionary legislation, as there is a continual shortage of funds for existing priorities.

**Declining revenues have meant drastic cuts, limiting our ability to invest in our communities and future economic stability.**

**Massachusetts state and local taxes are regressive.**

#### Highest Income Taxpayers Pay Smaller Share of Income in State and Local Taxes

1. **Please explain your principles and proposals as relate to this issue, and what work you personally have done to advance them (legislation, community work, published writings, etc.).**

**MD:** I support progressive tax reform. I have been a strong advocate for the Fair Share Amendment and supporter of Raise Up Massachusetts. I support the endowment tax on private colleges and universities, especially Harvard. I believe that putting a price on carbon is necessary to save the environment and provide much-needed revenue to the Commonwealth. In my district, we had an override in 2019. I was a volunteer on the Override Campaign and fought to make sure it passed. There is clearly not enough revenue coming to our communities and our schools and infrastructure are suffering because of it.

2. **Corporate Tax Breaks. Corporate tax breaks cost Massachusetts [more than \\$1 billion in foregone revenue](#) each year. Companies can secure access to such tax breaks due to political connections whether or not the promised benefits ever materialize. Which of the following accountability steps would you support?**
  - a. Collecting and publicly disclosing information about the benefits to the state from any tax break?
  - b. Repealing any tax break that does not provide the intended benefits in a cost-effective manner?
  - c. Establishing sunset dates for all tax breaks so that they must come up for periodic review?

**MD:** I would support a surtax on corporations where the CEO and Executives make 100 times more than the median worker.

3. **Fair Share. Would you support a constitutional amendment to increase the income tax on income over \$1 million by 4% (Fair Share Amendment, sometimes referred to as the "Millionaire's Tax")?**

**MD:** YES.

I am a strong supporter of the Fair Share Amendment.

4. **Progressive Revenue.** Massachusetts will not see new revenue from the Fair Share Amendment until 2023, but we have unmet needs now (and will still even with the Fair Share Amendment). Which policies would you support to make a more progressive tax code?
  - a. Raising the corporate minimum tax for larger companies? (The corporate minimum tax is currently only \$456.)
  - b. Imposing a tax on the portion of corporations' US profits that are shifted to offshore tax havens?
  - c. Raising the corporate tax rate from 8% to 9.5% (where it stood in 2009)?
  - d. Raising the tax on long-term capital gains from 5% to 8.95%, in line with states like New York and Vermont?
  - e. Levying a modest tax on university endowments greater than \$1 billion?

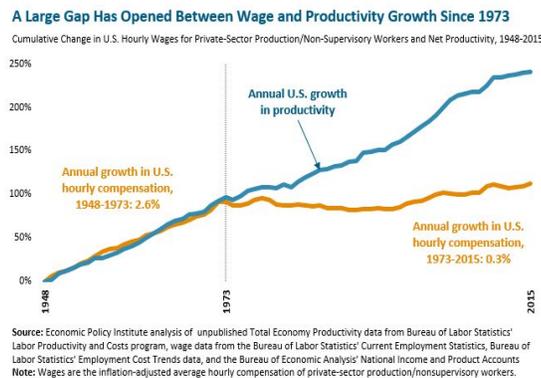

**MD:** I support all of the above.

## B. Jobs and the Economy

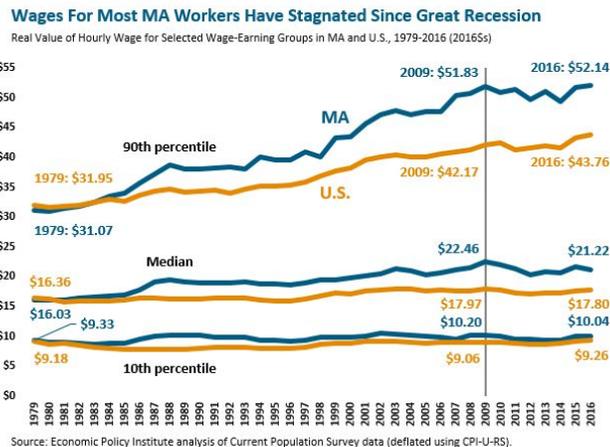

Massachusetts ranks as one of the top ten [most unequal states](#), as the gains from economic growth have disproportionately benefited the already well-off. Compounding this, we are one of the most expensive states in the country for [health care](#), [housing](#), and [child care](#), all of which strain wages. A strong economy depends on strong wages, as workers spend and help local economies thrive. Although the recently passed minimum wage increase will eventually lift the minimum wage to \$15 per hour, this is [still not a living wage](#) for many.

In recent decades, unions have been under attack. However, unions played -- and continue to play -- a pivotal role in creating a strong middle class. With weaker unions (or no unions at all) come weaker social and economic rights and an imbalanced economy.

### Productivity has grown significantly since the 1970s, but it is not being reflected in higher wages.

### Wages for most MA workers have remained stagnant since the Great Recession.

1. **Please explain your principles and proposals as relate to this issue, and what work you personally have done to advance them (legislation, community work, published writings, etc.).**

**MD:** I am a union activist and have purchased entirely union-made products in my campaign. I have stood with unions in the past on the picket line, like the Dedham Teachers and Stop and Shop workers for instance. I believe expanding the membership and rights of unions are the key to minimizing economic inequality, which is one of the largest problems plaguing the Commonwealth today. In addition, the state should be siding with workers in doing away with the tipped worker exception, restoring time-and-a-half policies which were eliminated with the "Grand Bargain," and expanding paid family and medical leave.

2. **Fair Wages. Do you support eliminating the subminimum wage for tipped workers in support of one fair wage?**

**MD:** YES.

3. **Wage Theft. Do you support holding businesses responsible for the wage violations of their subcontractors when the work they do is substantially connected to the company's operations?**

**MD:** YES.

4. **Overtime. Would you support updating MA's state overtime law to restore overtime pay protections to low- and moderate-income salaried workers when they work more than 40 hours a week?**

**MD:** YES.

5. **Fair Scheduling. Many workers in the service sector face irregular working hours, making it difficult to plan for other life events. Do you support providing workers the right to 14 days advance notice of hours and the right to request specific hours without retaliation from the employer?**

**MD:** YES.

Yes, I do, and I am in support of House Bill 3809. More than just causing difficulty in workers' lives, scheduling discrimination continues to be a plague in our workplaces.

6. **Unions. Since the 2010 election, a number of states have rolled back the collective bargaining rights of public workers as part of a well-funded, nationwide assault on unions, led by wealthy, conservative donors. Would you oppose any effort to roll back the collective bargaining rights of state or municipal employees?**

**MD:** YES.

I will unequivocally oppose any efforts to roll back the collective bargaining rights of anyone, including public workers.

7. **Mandatory Arbitration. Would you support legislation to prohibit the use of mandatory arbitration provisions in employment contracts, i.e., requirements that an employee forfeit the right to sue the employer for discrimination, nonpayment of wages, or other illegal conduct?**

**MD:** YES.

Yes, this is not fair and employers should not corner their workers.

### C. Education

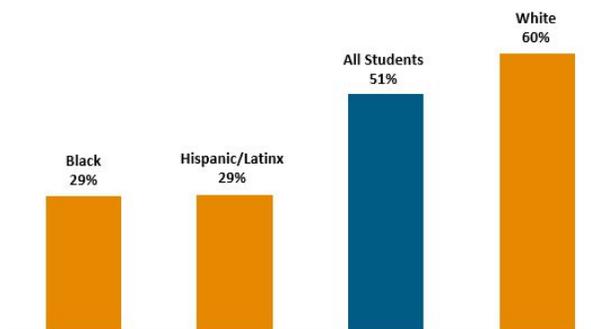

The promise of public education has always been as a gateway to opportunity and mobility for all, regardless of economic circumstances, a cornerstone of the American dream for all residents. Although our public education system gets high marks overall, it remains one of the [most unequal](#) in the country. Powerful corporate interests are promoting false solutions and working to undermine public schools, teachers, and unions. These groups invest millions of dollars to promote the expansion of privately run charter schools, which siphon money from our public K-12 districts while largely excluding students with the greatest needs. Costly, mandated standardized test results are used to label schools as “failing” and justify these privatization schemes.

Most of the [fastest-growing occupations](#) require education beyond a high school diploma, but Massachusetts has been disinvesting from public higher education for the past two decades. This has led to higher tuition costs, putting students at risk of long-term debt or making higher education out of reach for them entirely.

#### Massachusetts has significant achievement gaps reflective of resource gaps.

##### Massachusetts Has Significant Achievement Gaps for Youth of Color in 4th Grade Reading

#### Massachusetts has been disinvesting from higher education and shifting the cost burden onto students.

**Per Student, MA Has Cut Higher Ed Funding by 32 Percent Since FY 2001**

State spending on higher education per resident student, FY 2001-2018 (2018\$)

*Note: FY 2007 total is adjusted downwards to account for the fact that significant funding during this year was for capital investments that supported activity during other fiscal years.*

- 1. Please explain your principles and proposals as relate to this issue, and what work you personally have done to advance them (legislation, community work, published writings, etc.).**

**MD:** My policy in regards to public education is very simple: prioritize growth over proficiency in our schools. My experience as an education activist and working with teachers provides valuable knowledge to how we can address the problems in our public schools. I am a strong supporter of the Promise Act and stood with the Dedham Teachers when they went on strike last year. I am strongly opposed to charter schools and worked to make sure that No on 2 won in 2016. In 2019, Norwood passed a tax override to fund our schools. If it were to fail, all extracurriculars, including the arts and athletics would have been cut. I was volunteering and working to make sure it passed, my opponent was against the override.

- 2. Universal Pre-K. Do you support creating universal, free Pre-K, accessible to any resident of Massachusetts, integrated into the public school system?**

**MD:** YES.

This is a key pillar of my education platform.

- 3. Equitable Funding. In 2019, Massachusetts updated its 25-year-old education funding formula and committed to \$1.5 billion more in investment in public schools. How will you make sure the state follows through with this promise?**

**MD:** I am a proud product of public school and when elected, will be the only legislator in recent years to go through our public schools. I know what our schools and teachers need and will fight tooth and nail to get the resources they deserve, no matter what it takes.

- 4. Standardized Testing. Do you support a three-year moratorium on the high-stakes uses of standardized testing? (High-stakes" uses include high school graduation, teacher evaluation, and assigning ratings to schools.)**

**MD:** YES.

This has been a key pillar of our education platform.

5. **Charter Schools. In 2016, MA voters overwhelmingly rejected a ballot initiative to lift the cap on charter schools given the millions of dollars it would have siphoned away from public school districts.**
- a. Do you support keeping the cap on charter schools? **YES.**
  - b. Would you support legislation to bring greater accountability to charter schools by requiring them to adhere to the same disclosure and disciplinary standards as public school districts? **YES.**

**MD:** I want to lower the cap and phase out charter schools. We should invest in public education.

6. **Sex Education. Do you support requiring public schools that teach sexual health education to provide age-appropriate, medically accurate information that is inclusive of all sexual orientations and gender identities and includes the effective use of contraception?**

**MD:** YES.

100% yes, and we address this specifically in our education platform.

7. **Higher Education Access. Do you support granting in-state tuition and financial aid to undocumented students?**

**MD:** YES.

8. **Debt-Free College. Do you support making tuition (and mandatory curriculum fees) free at public colleges and universities?**

**MD:** YES.

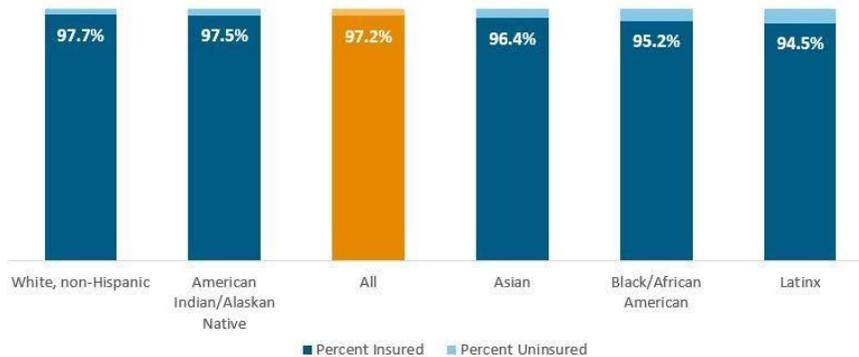

## D. Health Care

Massachusetts has led the way in providing near universal health insurance coverage, with [97% of the state](#) having health insurance. But until that is 100%, we haven't reached truly universal coverage or tackled critical barriers to accessing care. Disparities in insurance coverage and health care access continue to exist along income, racial, and education lines. Premiums continue to rise, and high deductibles mean that many do not get the health care they need -- or suffer from long-lasting debt if they do. We still spend an oversized portion of public and private money on health care, but without necessarily achieving better health outcomes.

**We have yet to achieve truly universal coverage, with continued disparities along racial lines.**

### Barriers to health insurance coverage remain for some

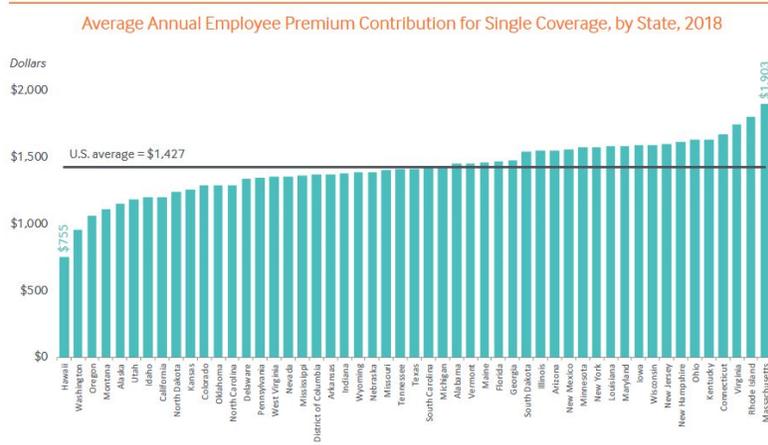

Percent with health insurance in Massachusetts, by race, 2017.

Source: U.S. Census Bureau American Community Survey.

*\*Note: Use particular caution when considering the American Indian/Alaskan Native data, because of small sample sizes. This chart does not include Native Hawaiian/Pacific Islander because the sample was too small and therefore was not included in the Census Bureau's data.*

**MA has the highest health insurance premiums in the US.**

Note: Employee premium contributions are for insurance policies offered by private-sector employers in the U.S.  
 Data: Medical Expenditure Panel Survey—Insurance Component (MEPS-IC), 2018.

- Please explain your principles and proposals as relate to this issue, and what work you personally have done to advance them (legislation, community work, published writings, etc.).**

**MD:** Medicare for All is the best solution to our healthcare problems, plain and simple. It not only saves working people and small businesses, but it saves lives. One of my top priorities in the legislature will be in advocating for H.1194 to implement Medicare for All in the Commonwealth, and the other points of my healthcare policy docket follow: expanding mental health care, lowering the cost of prescription drugs, properly addressing the Opioid Crisis, and ensuring that the healthcare needs of people of differing identities are addressed equitably. All of these points are expanded upon on my website: [votedooley.com/healthcare](http://votedooley.com/healthcare).

- Single Payer. Do you support enacting a single payer health care system in Massachusetts, which would guarantee health insurance as a right?**

**MD:** YES.

No premiums, no co-pays, no deductibles, no networks, and no surprise bills.

- Reproductive Rights. In Massachusetts, women under eighteen seeking an abortion must obtain parental consent or judicial authorization. This can lead to young women going out of state, or risking their lives and health with illegal or self-induced abortion. Would you support repealing this restriction?**

**MD:** YES.

I have lobbied for the ROE Act on Beacon Hill and I am the only pro-choice candidate in the race.

- Harm Reduction. An essential part of addressing the opioid crisis, safe consumption sites allow medical professionals to respond to overdoses and engage participants in medical and behavioral health services. Would you support the legalization of SCSs?**

**MD:** YES.

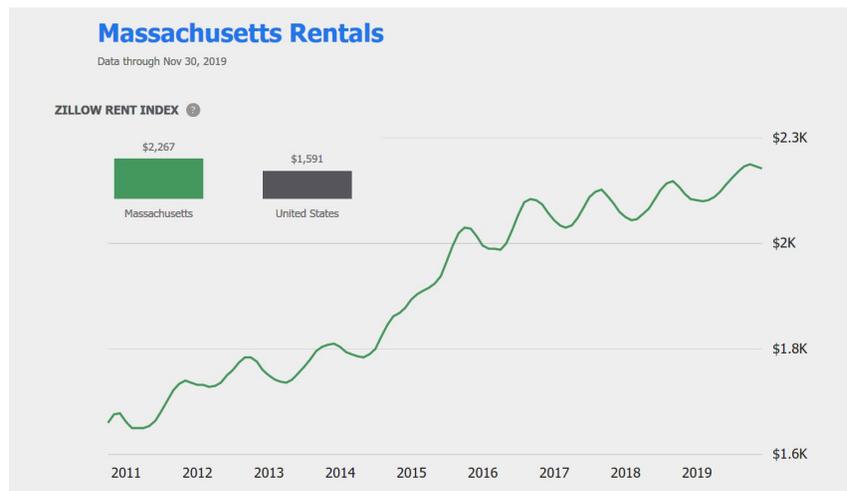

5. **Pandemic Response. How would you evaluate the state's response to the Covid-19 pandemic?**

**MD:** I believe the state's response to the COVID-19 pandemic has widely varied. Viewed from the angle of personal conduct guidelines, Governor Baker generally just seemed to follow what other governors put into place before him, though it has helped to flatten the curve. Politically, however, the state was very slow to respond to concerns about signature gathering, and still has yet to come to a clear consensus on vote-by-mail, an absolute necessity given the circumstances. The quick response to unemployment, while it could have gone farther, was helpful in getting working families put out of their jobs unemployment benefits faster, when they could get them at all. Meanwhile, Governor Baker has stacked his re-opening team with corporate heads, with few inclusions of health experts, community activists, or even small business representatives; re-opening, just like our government, needs to be moved away from corporate executives, not rely more on them.

## E. Housing

Massachusetts has a lot to offer, but that does little if people can't afford to live here. The [US News & World Report's annual state rankings](#) put Massachusetts at #41 in housing affordability (and #43 in cost of living). A worker earning minimum wage in Massachusetts would have to work [91 hours a week](#) to afford a modest one-bedroom rental home at market rate (and 113 hours for a modest two-bedroom). Over the last ten years, the need for affordable housing has increased, while funds for affordable housing have decreased at both federal and state levels. This is unsustainable. It has led to expanding economic inequality, increased homelessness, and damage to our economy, as talented workers often leave the state for less expensive regions.

**Monthly median rents have gone up by more than one-third since 2010, outpacing income growth.**

(source: [zillow.com](http://zillow.com))

- 1. Please explain your principles and proposals as relate to this issue, and what work you personally have done to advance them (legislation, community work, published writings, etc.).**

**MD:** Norwood and Walpole, like so many communities in Massachusetts, are facing a dangerous lack of affordable housing. This is a statewide problem, and we need a statewide solution, which gives individual municipalities the resources and mandate they need to expand affordable housing, as well as protect renters and the homeless. We are in the process of releasing our campaign's housing policy.

- 2. Funding. Would you support legislation that would allow cities and towns to impose a fee on real estate transfers to generate revenue for affordable housing, with the ability to create local exemptions as appropriate?**

**MD:** YES.

We need to generate revenue to build more affordable housing.

- 3. Tenant Protections. Do you support passing enabling legislation to provide municipalities with the authority to implement rent-stabilizing regulations, just cause eviction protections, stronger condominium conversion and foreclosure protections, anti-displacement zones, and options to help tenants manage the upfront costs of leasing an apartment?**

**MD:** YES.

The process of leasing needs to be easier and more affordable.

4. **Zoning Reform/Housing Production.** Do you support requiring cities and towns to allow multifamily housing to be built as of right within 1 mile of transit stations?

**MD:** YES.

5. **Eviction Sealing.** Today, when a tenant exercises their legal rights in housing court, it creates a permanent record. Eviction records create lasting stigma, are error prone and impair access to stable housing. Would you support legislation to seal eviction records so that both tenant and landlord could move on with their lives after three years?

**MD:** YES.

I am a strong supporter of the HOMES Act.

## F. Racial and Social Justice

Massachusetts must continue to strive to be a state that welcomes and embraces all of its residents and combats prejudice and discrimination of all kinds.

Mass incarceration in Massachusetts has proven socially and economically destructive, breaking apart communities across the state. From 2011 to 2016, [spending on prisons](#) grew faster than any other part of the Massachusetts budget, while funding for necessary services languished. The average cost per year to house an inmate in the Massachusetts Department of Corrections is [more than \\$60,000](#), money that could be better reinvested into the communities that have suffered from decades of misguided and racially discriminatory “tough on crime” policies. To achieve “justice for all,” we need a judicial system that does not disproportionately target communities of color and the poor and that does not criminalize public health issues such as addiction. The April 2018 criminal justice reform bill made strides forward, but there is more work to do.

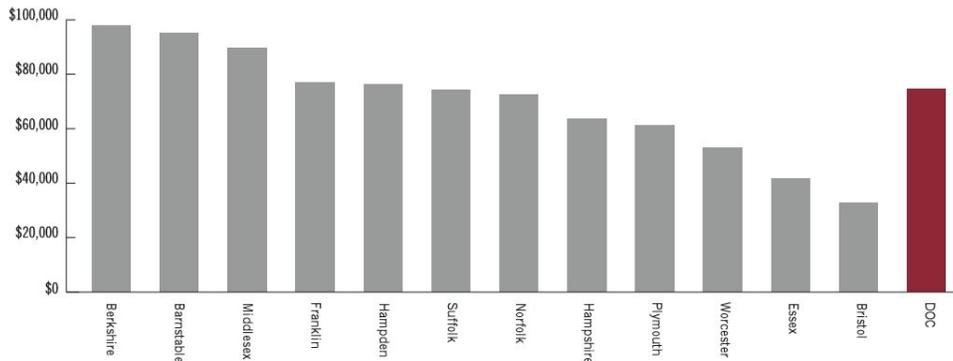

Immigrants make up 16% of Massachusetts’s population; however, demagoguery against, or indifference to, immigrant populations has historically been a mainstay of Massachusetts politics. As the Trump administration in Washington ramps up a xenophobic mass deportation agenda, it is important for states like Massachusetts to take leadership in protecting and advancing the rights of our immigrant communities and making clear that all are welcome.

### Significant racial disparities exist in incarceration in Massachusetts.

Imprisonment by Race/Ethnicity (2014)	
White imprisonment rate (per 100,000)	81
Black imprisonment rate (per 100,000)	605
Hispanic imprisonment rate (per 100,000)	351
Racial/Ethnic Disparity in Imprisonment (2014)	
Black : white ratio	7.5
Hispanic : white ratio	4.3
Juveniles in Custody (2015)	
Juvenile custody rate (per 100,000)	66
White custody rate (per 100,000)	22
Black custody rate (per 100,000)	222
Latino custody rate (per 100,000)	172
American Indian custody rate (per 100,000)	0
Asian custody rate (per 100,000)	7

**Massachusetts spends large (and growing) sums per inmate -- while still not providing for basic needs.**

Figure 4: Estimated expenditure per inmate, FY 2019

Source: MassINC's analysis of Department of Correction Weekly Count Sheets, April 2018, and average House and SWM FY 2019 budget proposals (adjusted upward based on final expenditures, FY 2011 to FY 2018)

- 1. Please explain your principles and proposals as relate to this issue, and what work you personally have done to advance them (legislation, community work, published writings, etc.).**

**MD:** I believe the key to combating prejudice and discrimination in the legislature is by bringing voices to the table to direct the course of our policy-making. Throughout the month of May, I am releasing social justice policies which are, in large part, the input of members of my team and other individuals from the identity groups which these policies concern; I am proud to have a diverse campaign team with many backgrounds and experiences to build and improve upon our policies. To this end, I know that we must make significant change in our criminal justice system to combat racism and we must protect our immigrant communities through the Safe Communities Act.

- 2. Police Accountability. Do you support the establishment of an independent review board for police shootings in the Commonwealth?**

**MD:** YES.

- 3. Sentencing Reform. The 2018 criminal justice reform bill was an important first step in reducing mass incarceration. However, in our "liberal" state, incarceration rates remain much higher than they are in other countries, and sentencing laws can be even more punitive than those in states viewed as conservative. Which of the following reforms would you support?**

- Eliminating mandatory minimums for opioid-related offenses?
- Raising the age of criminal majority from 18 to 21, in line with research that shows that young offenders served by a juvenile system are much less likely to reoffend and more likely to successfully transition to adulthood?
- Decriminalizing consensual sexual activity between adolescents, by creating an exception to the statutory rape law for youth close in age?
- Eliminating the sentence of life without parole, which is costly and has been shown to be racist in its application?

**MD:** Eliminate all mandatory minimums. In terms of eliminating life without parole, I think there are other steps we can take to address racism and reform our criminal justice system first, but I would not rule it out after looking into it more.

- 4. Solitary Confinement. In Massachusetts, prisoners can be sentenced to 10 years of solitary confinement—per infraction. The UN defines holding someone in solitary**

**confinement for more than 15 days as torture. Do you support limiting the use of solitary to no more than 15 consecutive days?**

**MD: YES.**

- 5. Prison Visitation. Maintaining connections with friends and family outside prisons is one of the most important factors in ensuring successful reentry. In March 2018, the DOC severely limited the ability of prisoners to receive visits and the rights of family and friends to visit their loved ones in prison. ([Read more on this here.](#)) Do you favor ending these restrictions?**

**MD: YES.**

- 6. Prison Profiteering. While Massachusetts does not have private prisons, the DOC invites private companies to profit off of the families of prisoners by price gouging inmates who have no alternatives but to buy from the sole providers of goods in prisons. Do support ending the price gouging of inmates for necessary items and requiring DOC to adequately supply inmates with the basic requirements necessary for life to keep in contact with their families and maintain good health and hygiene?**

**MD: YES.**

- 7. Safe Communities Act. Do you support the Safe Communities Act, which limits local and state police collaboration with federal immigration agents, bars law enforcement and court personnel from inquiring about immigration status, and ensures due process protections?**

**MD: YES.**

- 8. Work and Family Mobility Act. Do you support removing immigration status as a barrier to applying for a license or learner's permit?**

**MD: YES.**

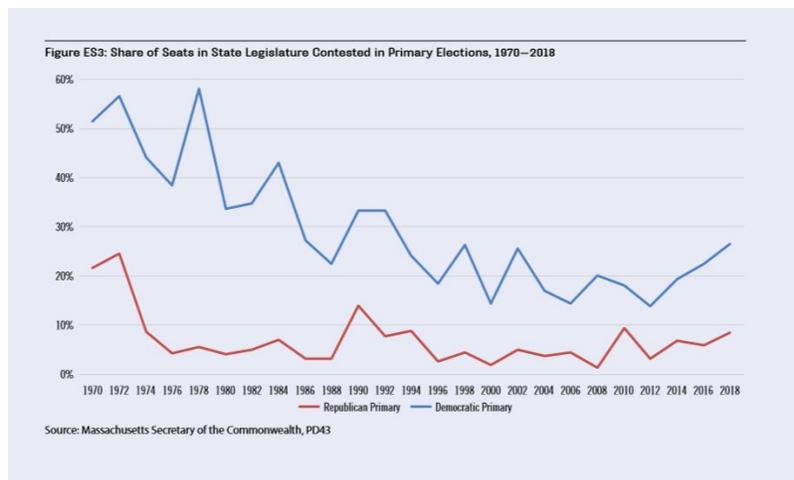

If everyone is trained behind the wheel, the roads will be safer.

## G. Good Government and Strong Democracy

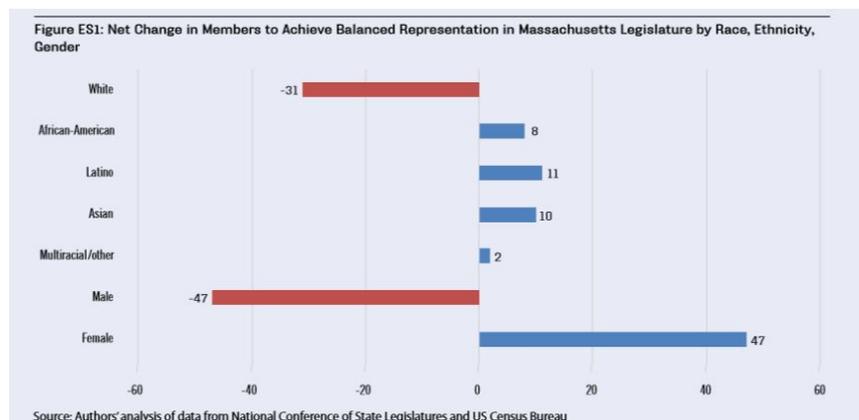

A strong democracy depends on a transparent and representative government and an engaged public. Too often, however, we see centralized, unaccountable power and barriers to participation. An undemocratic, centralized power structure on Beacon Hill makes it easier for lobbyists to target the top and undermine the system. Despite recent reforms, a weak public records system stymies government accountability: MA is one of only two states where all three branches of state government claim to be exempt. A strong democracy requires an engaged electorate, but voter turnout in midterm elections, and especially local elections, remains low. Although election modernization legislation in 2014 and 2018 helped bring much-needed reforms, we still lag behind states in New England and around the country in making voting accessible (Maine, for instance, has allowed for Election Day Registration since the 1970s).

A centralized power system, a skewed campaign finance system, and restrictive voting laws together help create a situation in which our elections are the [least competitive in the country](#).

**Our elections have grown less competitive over the past four decades.**

**Our legislature is not reflective of the population as a whole.**

1. **Please explain your principles and proposals as relate to this issue, and what work you personally have done to advance them (legislation, community work, published writings, etc.).**

**MD:** Transparency is the first issue listed in my website for a reason: I believe the time of governance behind closed doors must come to an end. On Day 1 of my campaign I signed the Voters Deserve to Know Pledge, and immediately got to work to ensure that our campaign policy and campaign itself were as transparent as they can be. I've made promises to make my votes public, hold regular offices around the schedules of working families, and do all I can to be an accessible, accountable representative. Secrecy has driven qualified individuals away from running for office, and so I believe the first step in achieving a more diverse legislature is building a more democratic one.

2. **Public Records Law. Massachusetts is one of only two states where the Governor's Office, the Legislature, and the Judiciary claim full exemption from the public records laws. Would you support eliminating this exemption?**

**MD:** YES.

This is a no-brainer. The people deserve a transparent and accountable government. This is a key pillar of my platform.

3. **Legislative Transparency -- Part I. The Massachusetts Legislature lacks many basic transparency measures found in other state legislatures around the country. Would you vote in favor of making the following items available online...?**
  - a. All committee votes, whether taken by electronic poll or formal roll call?
  - b. All written testimony submitted for or against bills?
  - c. Reader-friendly summaries of bills currently in or reported out of committee?

**MD:** This is also a no-brainer. I signed the Act on Mass Voters Deserve to Know Pledge on Day 1.

4. **Legislative Transparency -- Part II. Legislators only vote to change the rules at the start of the legislative session, but all legislators can model transparency on their own throughout the session. Would you commit to doing the following...?**
  - a. Standing for a recorded vote when a colleague asks for one on any amendment which you have co-sponsored?
  - b. Making your committee votes available online on your website?

**MD:** This is also a no-brainer. I signed the Act on Mass Voters Deserve to Know Pledge on Day 1.

5. **State House Culture. Do you support the creation an independent commission to investigate and report on complaints of workplace and sexual harassment in the Massachusetts Legislature?**

**MD:** YES.

6. **Public Campaign Financing. Our campaign finance system favors incumbency and discriminates against potential candidates who do not have a ready pool of wealthy donors. Do you support the creation of a robust public financing system for state elections?**

**MD:** NO.

This puts more money into politics and we should be focused on taking it out.

7. **Removing Barriers to Running. The cost of child care can prove prohibitive to working mothers or fathers seeking to run for office. Would you support legislation**

**to explicitly allow working parents running for office to use campaign funds to pay for child care?**

**MD:** YES.

8. **Voting Access**. Which of the following policies to increase voter participation do you support?

a. Election Day Registration?

b. The expansion of early voting to municipal elections and primaries?

c. No-fault absentee voting?

d. Ending the disenfranchisement of prisoners serving with felony convictions (Their right to vote was taken away by ballot twenty years ago)?

9. **Ranked Choice Voting**. Do you support the 2020 ballot initiative to adopt ranked choice voting for state, county, and (non-presidential) federal elections?

**MD:** YES.

10. **Election Integrity**. Do you support requiring [risk-limiting audits](#) of election results, in which a statistically significant percentage of ballots are hand counted to ensure that the reported winner was the actual winner, preserving the integrity of elections from foreign interference, technological glitches, or simple human error?

**MD:** YES.

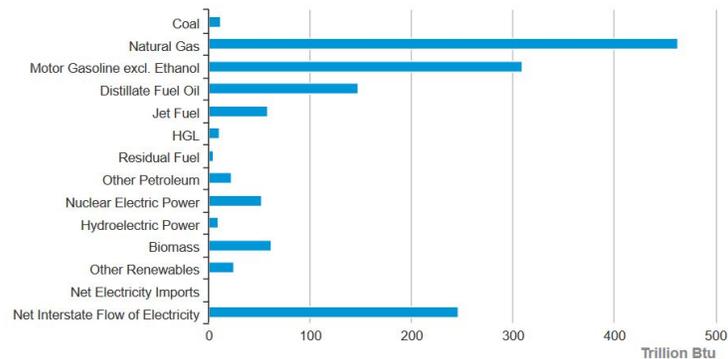

## H. Sustainable Infrastructure and Environmental Protection

As a coastal state, Massachusetts will be hit particularly hard by climate change, but we are not responding with the necessary urgency. In order to avoid catastrophic climate change, global carbon emissions need to be [halved by 2030](#) and brought to net zero by 2050. In 2016, the Massachusetts Supreme Judicial Court ruled that the state has failed to meet its legal obligation to set and enforce annual limits on greenhouse gas emissions as outlined in the 2008 Global Warming Solutions Act. Setting and reaching these goals will require the decarbonization of our state economy and a transition away from fossil fuels toward clean, renewable sources of energy. In light of congressional gridlock at the federal level, state government must take a role in incentivizing reduced carbon usage and assisting in coordination between agencies and moving forward local government understanding of looming climate threats.

Public transit must play a role in decarbonizing our transportation system, as well as advancing complementary goals of equity and inclusion. However, Massachusetts politicians have lost their understanding of public transit as a public good that benefits all residents and businesses in Massachusetts, not just those who use it in their daily lives. The greatest evidence of this is their neglect of the MBTA: its debt has grown to nearly [\\$5 billion](#), and it would need [more than \\$10 billion](#) to bring infrastructure and equipment up to a state of good repair. Regional Transit Authorities that serve communities, including Gateway Cities across the state, face enormous capital needs as well.

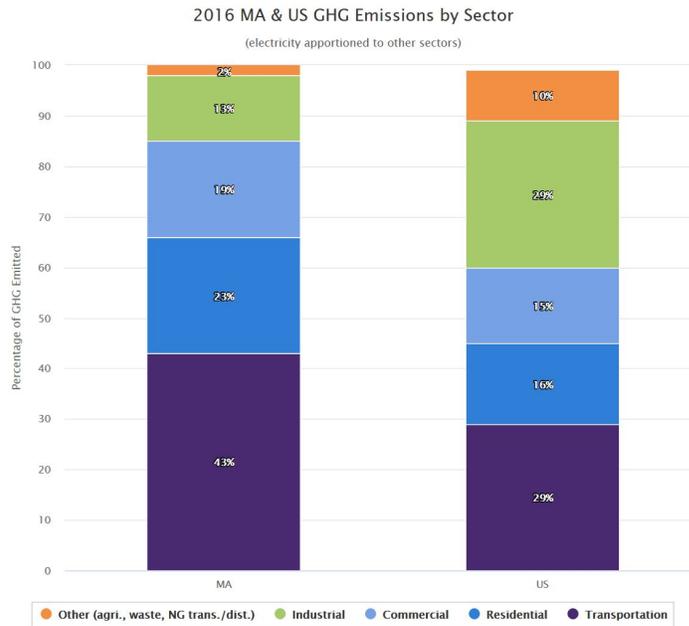

**Despite recent progress, Massachusetts is still overwhelmingly dependent on fossil fuels.**

Massachusetts Energy Consumption Estimates, 2017

**Transportation is currently the largest contributor to greenhouse gas emissions in MA.**

- 1. Please explain your principles and proposals as relate to this issue, and what work you personally have done to advance them (legislation, community work, published writings, etc.).**

**MD:** The climate crisis is one of the pillars of my campaign; as a young person especially, I have seen my generation lead on environmental issues. I think we need to take bold leaps, like the Green New Deal, to save our planet, and do it with marginalized communities already most impacted by climate change in mind. To this end, I put out a policy docket I am incredibly proud of: as State Representative, I will, with urgency, work to pass legislation to get Massachusetts to 100% renewable energy by 2035, pass a moratorium on fossil fuel and natural gas expansion, expand efforts to ensure environmental justice in our approach, implement carbon pricing, subsidize home installations of solar panels, and open the door to investments in offshore wind. Expansions on this can be found at my website: [votedooley.com/environment](http://votedooley.com/environment).

- 2. Waste Reduction. Would you support a statewide ban on single-use shopping bags and a requirement that alternatives be more sustainable?**

**MD:** YES.

I support individual communities' bans on single-use shopping bags.

- 3. Solar Energy. Do you support increasing equitable access to solar power by removing caps on solar generation and restoring compensation for low-income and community solar?**

**MD:** YES.

- 4. Renewable Energy. Do you support a target of 100% renewable energy economy-wide by 2045 and 100% renewable electricity by 2035?**

**MD:** YES.

I support a target of 100% renewable energy by 2035.

5. **Environmental Justice.** Successive gubernatorial administrations have made verbal commitments to environmental justice (EJ), and Governor Deval Patrick issued an Executive Order on Environmental Justice in 2014 which has not been implemented. Would you support efforts to codify EJ into law?

**MD:** YES.

6. **Fossil Fuel Infrastructure.** Do you oppose the expansion of gas pipelines in the state?

**MD:** YES.

7. **Carbon Pricing.** Do you support imposing a fee on carbon emissions and using some of the revenue to invest in green infrastructure, especially in frontline communities?

**MD:** YES.

8. **Public Transportation.** Will you oppose any fare increases to the MBTA or regional transit authorities and work toward the goal of fare-free public transit?

**MD:** YES.

9. **Regional Transportation Funding.** The unavailability of state funds for infrastructure spending has meant the deterioration of regional transportation systems. Do you support allowing municipalities to place a question on the ballot to raise revenue for local and regional transportation projects?

**MD:** YES.

### **III. ADDITIONAL COMMENTS**

#### ***Limit answer to 150 words or fewer.***

Use this space to add any other issues important to your vision for Massachusetts or any other matter you think progressive voters should know about your candidacy.

**MD:** I would like to work with other representatives to make co-sponsorships mean something. Over 7,000 bills are filed each legislative session and we need to do better at making sure these bills reach the Governor's desk, after they are brought to the floor for full and open debate. I am in full support of amending House rules to add a threshold for a number of co-sponsorships which brings a bill to a vote on the House floor automatically.
