

**PROGRESSIVE MASSACHUSETTS
2020 LEGISLATIVE
ENDORSEMENT QUESTIONNAIRE**

Date: 6/5/2020

Candidate: Duckens Petit-Maitre

Office Sought: State Representative, 14th Suffolk

Party: Democratic

Website: www.voteduckens4staterep.com

Twitter: @petitDuckens

Facebook: www.facebook.com/duckens.petitmaitre

OVERVIEW

We view our questionnaire as an educational resource, for both candidates and voters, on progressive approaches to the issues. It provides candidates the opportunity to address a number of important issues beyond the surface talking points, which progressive voters find extremely valuable when making a decision.

Our Questionnaires starts with an "About You" section and ends with an opportunity for you to include additional remarks beyond what we asked.

The bulk of our questionnaire is focused on the issues outlined in our [Progressive Platform](#), which also inform our [Legislative Agenda](#). We are interested in your overall philosophy as well as your views on specific policy and legislation.

Each section features charts or graphs (with links to sources) that illustrate one or more facets of the issue under discussion.

We encourage you to expand your answers beyond "yes/no" in the additional comments space provided on the form, but please keep answers < 150 words.

Issue Subsections:

- A. Revenue and Taxation
- B. Jobs and the Economy
- C. Education
- D. Health Care
- E. Housing
- F. Racial and Social Justice
- G. Good Government and Strong Democracy
- H. Sustainable Infrastructure and Environmental Protection

*Our questionnaire is comprehensive and will take time to complete. Please develop your answers in a separate document before inputting them into the submission form.
(progressivemass.com/questionnaire)*

I. About You

1. Why are you running for office? And what would be your top 3 legislative priorities if elected?

DPM: I am running for the State Representative in the 14th Suffolk District because I believe there's a strong need for a new leader with bold ideas to develop and move our entire communities forward for all. Another reason I decided to run was that the leaders were not speaking for everyone. I believe the community is tired to see the same faces running for office and running the community events. My priorities are to focus on Acc "AFFORDABLE HOUSING" is one of my top priorities. Having purchased a house in Hyde Park about 7 years ago; I completely understand how hard the process is to live the American dream when buying even consider renting, and how bad the market is, even before Covid-19.

I also want to work on the legislation and in the communities to stimulate "SMALL BUSINESS GROWTH". I believe that Small Businesses are the backbone of every city's economy. Keeping it Local that is my campaign slogan meaning: "Eat Local, Shop Local, & Consume Local." One other key point for the District that I have witnessed first-hand is certain machines in Readville cleaning the Train tracks late at night making loud noise and leaving behind the smoke.

Once again; I believe in "RESPONSIBLE, RELIABLE, and ACCESSIBLE, TRANSPORTATION SYSTEM" throughout the commonwealth and most importantly our 14th Suffolk District. I personally do not believe that people in Readville have to consume or inhale that kind of fume. It is absolutely not good for the Readville residents as well as the environment. Keolis or the state should have stepped-in and resolved this matter accordingly. In closing, I promise to be accessible, return calls within 24 hours and put people's concerns into actions.

2. What prepares you to serve in this capacity?

DPM: First and foremost, I know exactly how to start new and face challenges. I believe my education and my involvement in the political field as a volunteer, donor and most of the time as an activist make me uniquely qualified for the position. I graduated from the Boston public school (West Roxbury High School). I hold a (B.A.) Bachelor of Art in Legal Studies from Newbury College with a minor in Business Administration. I have an Associate degree in Criminal Justice from Bunker Hill Community College and a certificate in Information Technology from Cambridge College. I also have studied Political Science, and currently attending Massachusetts School of Law.

Most recently, I became a member of the new Ward 18 Democratic Committee and Volunteered on the Hyde Park 150 (HP 150), which was a successful event two years ago. I have served as a City of Boston Constable for 12 years as well as a notary public. I have served on several political campaigns, including former Senator Linda Dorcena Forry, and the mayoral runs of the late mayor Tom Menino. I have also helped Mr. Rob Consalvo in his campaign when he was running for District 5 Boston City Council, and during his mayoral run back in 2013.

3. What do you view as the biggest obstacles to passing progressive policy at the state level?

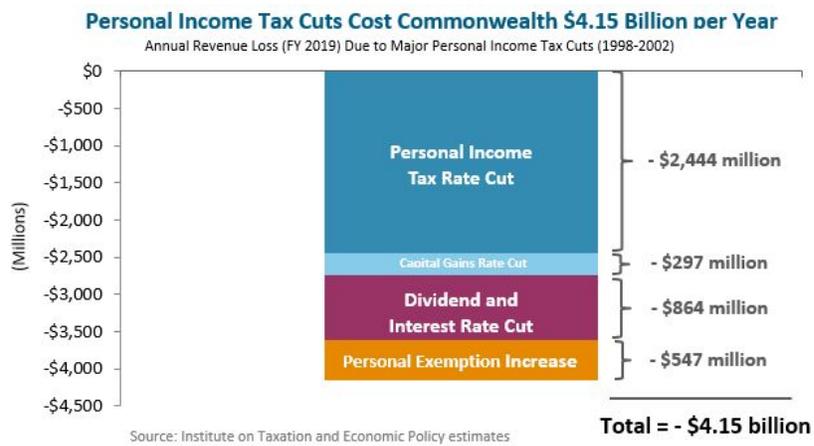

DPM: I personally think Accountability, and Transparency are the biggest obstacles to passing progressive policy at the State level. The communities/Taxpayers need commitment and better leadership at the State Level.

II. The Issues

A. Revenue and Taxation

Between 1977 and 2016, Massachusetts [reduced state taxes](#) by more than all but two other states. Because of income tax cuts enacted between 1998 and 2002, Massachusetts loses over \$4 billion in tax revenue *each year*--\$4 billion that is not invested in our roads, bridges, schools, parks, and services, all of which have historically been part of why MA is a great place to live. Such cuts to the state income tax have meant increasing reliance on fees, as well as sales, gas, and property taxes, exacerbating the overall regressivity of the system. Regressive taxation strains low- and middle-income families, and reduced revenue collection curtails our ability to invest in vital infrastructure. It also restricts legislators' ability--and willingness--to pass new and visionary legislation, as there is a continual shortage of funds for existing priorities.

Declining revenues have meant drastic cuts, limiting our ability to invest in our communities and future economic stability.

Massachusetts state and local taxes are regressive.

1. **Please explain your principles and proposals as relate to this issue, and what work you personally have done to advance them (legislation, community work, published writings, etc.).**

DPM: I personally think the wealthy in Massachusetts don't pay enough Taxes. A few years ago, the Massachusetts state government passed nearly \$4 billion in tax cuts, which disproportionately went to the wealthiest taxpayers. These tax cuts have meant chronic underfunding of public systems. I believe that habits must change immediately. Once I get elected, I would hold town meetings and listen to the community concerns about Tax issues and bring a strategic plan that will help make it fairer for everyone (Income Earners).

2. **Corporate Tax Breaks. Corporate tax breaks cost Massachusetts more than \$1 billion in foregone revenue each year. Companies can secure access to such tax breaks due to political connections whether or not the promised benefits ever materialize. Which of the following accountability steps would you support?**

- a. Collecting and publicly disclosing information about the benefits to the state from any tax break?
- b. Repealing any tax break that does not provide the intended benefits in a cost-effective manner?
- c. Establishing sunset dates for all tax breaks so that they must come up for periodic review?

3. **Fair Share. Would you support a constitutional amendment to increase the income tax on income over \$1 million by 4% (Fair Share Amendment, sometimes referred to as the "Millionaire's Tax")?**

DPM: YES.

I strongly believe that all corporations must pay their minimum corporate excise taxes, and even if they don't have anything to claim as profit. As an addition to the Massachusetts Tax Code, I would propose an increase of 1.2% for an individual that makes more than \$250,000.00 yearly. I would propose a 2.1% increase for an individual that makes more than \$500,000 in capital gain. I also agree 100% to propose a 4% increase to individual income tax that makes more than \$1 million in capital gain. When it comes to Taxes, I promise to be impartial on every decision that I will take on behalf of the Commonwealth of Massachusetts, and most importantly the 14th Suffolk District.

4. **Progressive Revenue. Massachusetts will not see new revenue from the Fair Share Amendment until 2023, but we have unmet needs now (and will still even with the Fair Share Amendment). Which policies would you support to make a more progressive tax code?**
 - a. Raising the corporate minimum tax for larger companies? (The corporate minimum tax is currently only \$456.)
 - b. Imposing a tax on the portion of corporations' US profits that are shifted to offshore tax havens?
 - c. Raising the corporate tax rate from 8% to 9.5% (where it stood in 2009)?
 - d. Raising the tax on long-term capital gains from 5% to 8.95%, in line with states like New York and Vermont?
 - e. Levying a modest tax on university endowments greater than \$1 billion?

DPM: According to the Massachusetts DOR taxes data, the state income tax is the largest source of funding for state programs and services. I realized that the Commonwealth spends billions of dollars in tax breaks, credits, and exemptions for corporations. Often, these tax breaks were designed to create jobs, but often do not deliver and lack a mechanism for accountability.

B. Jobs and the Economy

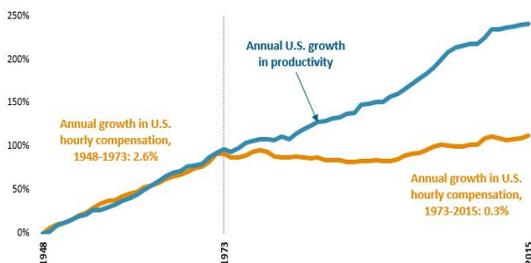

Massachusetts ranks as one of the top ten [most unequal states](#), as the gains from economic growth have disproportionately benefited the already well-off. Compounding this, we are one of the most expensive states in the country for [health care](#), [housing](#), and [child care](#), all of which strain wages. A strong economy depends on strong wages, as workers spend and help local economies thrive. Although the recently passed minimum wage increase will eventually lift the minimum wage to \$15 per hour, this is [still not a living wage](#) for many.

In recent decades, unions have been under attack. However, unions played -- and continue to play -- a pivotal role in creating a strong middle class. With weaker unions (or no unions at all) come weaker social and economic rights and an imbalanced economy.

Productivity has grown significantly since the 1970s, but it is not being reflected in higher wages.

A Large Gap Has Opened Between Wage and Productivity Growth Since 1973

Cumulative Change in U.S. Hourly Wages for Private-Sector Production/Non-Supervisory Workers and Net Productivity, 1948-2015

Source: Economic Policy Institute analysis of unpublished Total Economy Productivity data from Bureau of Labor Statistics' Labor Productivity and Costs program, wage data from the Bureau of Labor Statistics' Current Employment Statistics, Bureau of Labor Statistics' Employment Cost Trends data, and the Bureau of Economic Analysis' National Income and Product Accounts
Note: Wages are the inflation-adjusted average hourly compensation of private-sector production/nonsupervisory workers.

Wages for most MA workers have remained stagnant since the Great Recession.

Wages For Most MA Workers Have Stagnated Since Great Recession

Real Value of Hourly Wage for Selected Wage-Earning Groups in MA and U.S., 1979-2016 (2016\$)

Source: Economic Policy Institute analysis of Current Population Survey data (deflated using CPI-U-RS).

- 1. Please explain your principles and proposals as relate to this issue, and what work you personally have done to advance them (legislation, community work, published writings, etc.).**

DPM: Every cities or district need a strong economy strategy to stand firm. I was a forefront figure to fight for small businesses' growth, and advocate on behalf of the hardworking families. Hardworking union workers deserved a better contract. I was never invisible in the community when to fight for union workers who barely making minimum wages. As a community activist and a ward18 member, I will stand for the betterment of our economy and help promote our small businesses, which is the backbone of every District or City's economy.

For Instance: during the Stop & Shop strikes, I have decided to go stand with my fellow UFCW Local 1445 brothers and sisters. I went to Dedham Mall as well as South Bay Mall and held a sign over my neck to support them because we're hardworking families. They are low wages employees, and they deserved a much better contract. When it comes to Union fight a strong collective action is imperative. I even supported my own Local 589 Union demands against privatization Governor Baker was trying to set up. I believe that we must have someone like myself in the kitchen to know the true ingredients in our foods." Once I get elected, I promise to work together to bring the change our communities were desperately needed. Remember: "Our communities' success is our success."

- 2. Fair Wages. Do you support eliminating the subminimum wage for tipped workers in support of one fair wage?**

DPM: YES.

- 3. Wage Theft. Do you support holding businesses responsible for the wage violations of their subcontractors when the work they do is substantially connected to the company's operations?**

DPM: YES.

Businesses should not be able to use subcontractors to avoid paying their workers a fair wage.

- 4. Overtime. Would you support updating MA's state overtime law to restore overtime pay protections to low- and moderate-income salaried workers when they work more than 40 hours a week?**

DPM: YES.

- 5. Fair Scheduling. Many workers in the service sector face irregular working hours, making it difficult to plan for other life events. Do you support providing workers the right to 14 days advance notice of hours and the right to request specific hours without retaliation from the employer?**

DPM: YES.

- 6. Unions. Since the 2010 election, a number of states have rolled back the collective bargaining rights of public workers as part of a well-funded, nationwide assault on unions, led by wealthy, conservative donors. Would you oppose any effort to roll back the collective bargaining rights of state or municipal employees?**

DPM: YES.

7. **Mandatory Arbitration.** Would you support legislation to prohibit the use of mandatory arbitration provisions in employment contracts, i.e., requirements that an employee forfeit the right to sue the employer for discrimination, nonpayment of wages, or other illegal conduct?

DPM: YES.

C. Education

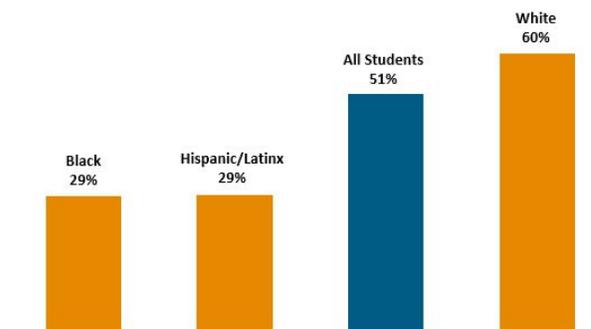

The promise of public education has always been as a gateway to opportunity and mobility for all, regardless of economic circumstances, a cornerstone of the American dream for all residents. Although our public education system gets high marks overall, it remains one of the [most unequal](#) in the country. Powerful corporate interests are promoting false solutions and working to undermine public schools, teachers, and unions. These groups invest millions of dollars to promote the expansion of privately run charter schools, which siphon money from our public K-12 districts while largely excluding students with the greatest needs. Costly, mandated standardized test results are used to label schools as “failing” and justify these privatization schemes.

Most of the [fastest-growing occupations](#) require education beyond a high school diploma, but Massachusetts has been disinvesting from public higher education for the past two decades. This has led to higher tuition costs, putting students at risk of long-term debt or making higher education out of reach for them entirely.

Massachusetts has significant achievement gaps reflective of resource gaps.

Massachusetts Has Significant Achievement Gaps for Youth of Color in 4th Grade Reading

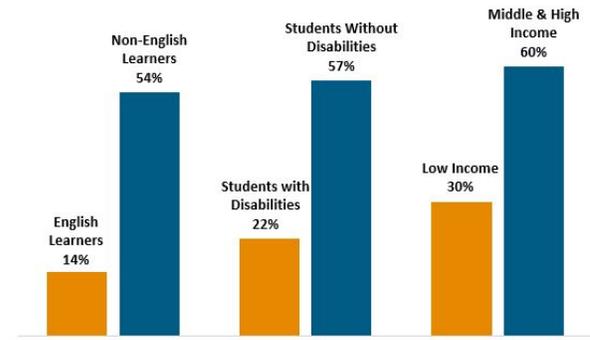

Share of MA 4th Graders Proficient on the 2017 NAEP Reading Exam, by Student Race, all students

Source: National Center for Education Statistics, 2017

Massachusetts Has Significant Achievement Gaps for Disadvantaged Youth in 4th Grade Reading

Share of Mass. 4th Graders Proficient on the 2017 NAEP Reading Exam, by Student Category

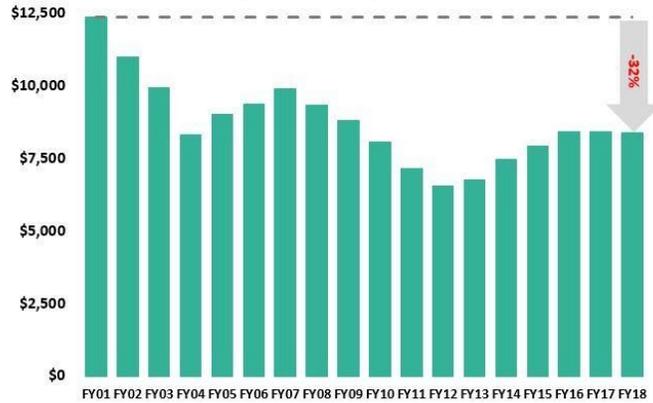

Source: National Center for Education Statistics, 2017

Massachusetts has been disinvesting from higher education and shifting the cost burden onto students.

Per Student, MA Has Cut Higher Ed Funding by 32 Percent Since FY 2001

State spending on higher education per resident student, FY 2001-2018 (2018\$)

Note: FY 2007 total is adjusted downwards to account for the fact that significant funding during this year was for capital investments that supported activity during other fiscal years.

- 1. Please explain your principles and proposals as relate to this issue, and what work you personally have done to advance them (legislation, community work, published writings, etc.).**

DPM: Education is the key point to success. As Boston Public School graduate, and a Boston Public School father of two boys, I have supported more funding for the betterment of our children’s education. My mission is to see every child get the education that they are deserved.

- 2. Universal Pre-K. Do you support creating universal, free Pre-K, accessible to any resident of Massachusetts, integrated into the public school system?**

DPM: NO.

- 3. Equitable Funding. In 2019, Massachusetts updated its 25-year-old education funding formula and committed to \$1.5 billion more in investment in public schools. How will you make sure the state follows through with this promise?**

DPM: As our next state representative, I promise to fight for chapter 70 fund to be increased and hired more teachers from different ethnicity and promote the bilingual services back to schools. I will make sure our children have equal access to quality education.

- 4. Standardized Testing. Do you support a three-year moratorium on the high-stakes uses of standardized testing? (High-stakes" uses include high school graduation, teacher evaluation, and assigning ratings to schools.)**

DPM: YES.

- 5. Charter Schools. In 2016, MA voters overwhelmingly rejected a ballot initiative to lift the cap on charter schools given the millions of dollars it would have siphoned away from public school districts.**

- Do you support keeping the cap on charter schools? **YES.**
- Would you support legislation to bring greater accountability to charter schools by requiring them to adhere to the same disclosure and disciplinary standards as public school districts? **YES.**

6. **Sex Education**. Do you support requiring public schools that teach sexual health education to provide age-appropriate, medically accurate information that is inclusive of all sexual orientations and gender identities and includes the effective use of contraception?

DPM: YES.

7. **Higher Education Access**. Do you support granting in-state tuition and financial aid to undocumented students?

DPM: YES.

8. **Debt-Free College**. Do you support making tuition (and mandatory curriculum fees) free at public colleges and universities?

DPM: YES.

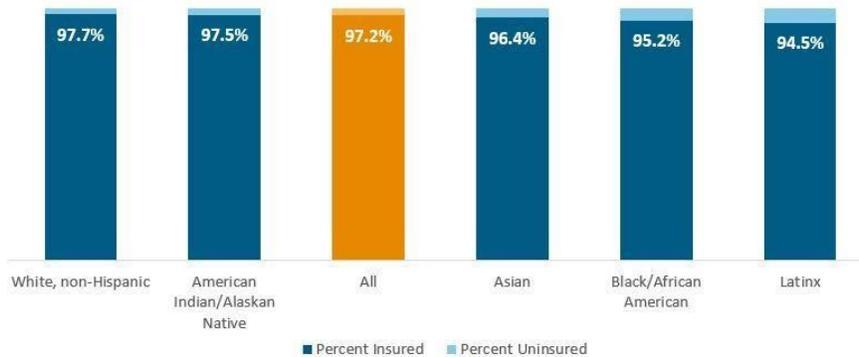

D. Health Care

Massachusetts has led the way in providing near universal health insurance coverage, with [97% of the state](#) having health insurance. But until that is 100%, we haven't reached truly universal coverage or tackled critical barriers to accessing care. Disparities in insurance coverage and health care access continue to exist along income, racial, and education lines. Premiums continue to rise, and high deductibles mean that many do not get the health care they need -- or suffer from long-lasting debt if they do. We still spend an oversized portion of public and private money on health care, but without necessarily achieving better health outcomes.

We have yet to achieve truly universal coverage, with continued disparities along racial lines.

Barriers to health insurance coverage remain for some

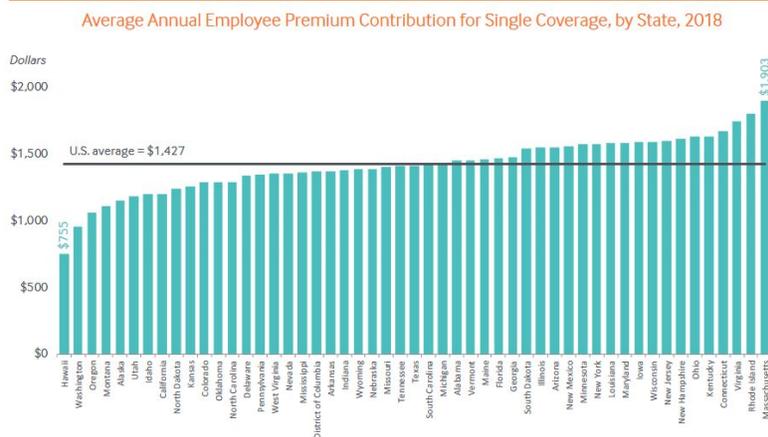

Percent with health insurance in Massachusetts, by race, 2017.

Source: U.S. Census Bureau American Community Survey.

*Note: Use particular caution when considering the American Indian/Alaskan Native data, because of small sample sizes. This chart does not include Native Hawaiian/Pacific Islander because the sample was too small and therefore was not included in the Census Bureau's data.

MA has the highest health insurance premiums in the US.

Note: Employee premium contributions are for insurance policies offered by private-sector employers in the U.S.
Data: Medical Expenditure Panel Survey--Insurance Component (MEPS-IC), 2018.

1. **Please explain your principles and proposals as relate to this issue, and what work you personally have done to advance them (legislation, community work, published writings, etc.).**

DPM: Massachusetts takes the lead in providing health care for all, and I strongly support that affirmative action. However, other health care facilities must benefit in that health care act as well. As our next state representative, I will have some strategies based on educational programs covering addiction pain and behavioral health. I will also prioritize and act promptly to needs in the community for better treatments and preventions.

2. **Single Payer. Do you support enacting a single payer health care system in Massachusetts, which would guarantee health insurance as a right?**

DPM: YES.

This is an even more critical need as unemployment rates continue to rise.

3. **Reproductive Rights. In Massachusetts, women under eighteen seeking an abortion must obtain parental consent or judicial authorization. This can lead to young women going out of state, or risking their lives and health with illegal or self-induced abortion. Would you support repealing this restriction?**

DPM: YES.

Since the judicial bypass law was enacted, thousands of young women have appeared before judges to plead for the abortion health care they need. In all but a small handful of cases, judges granted their pleas. This law is completely unnecessary and unjust.

4. **Harm Reduction. An essential part of addressing the opioid crisis, safe consumption sites allow medical professionals to respond to overdoses and engage participants in medical and behavioral health services. Would you support the legalization of SCSs?**

DPM: YES.

Drug abuse is a medical, not criminal, issue. SCSs will save lives and move us closer to a medical model for addressing the problem and providing the care and support people who abuse drugs need.

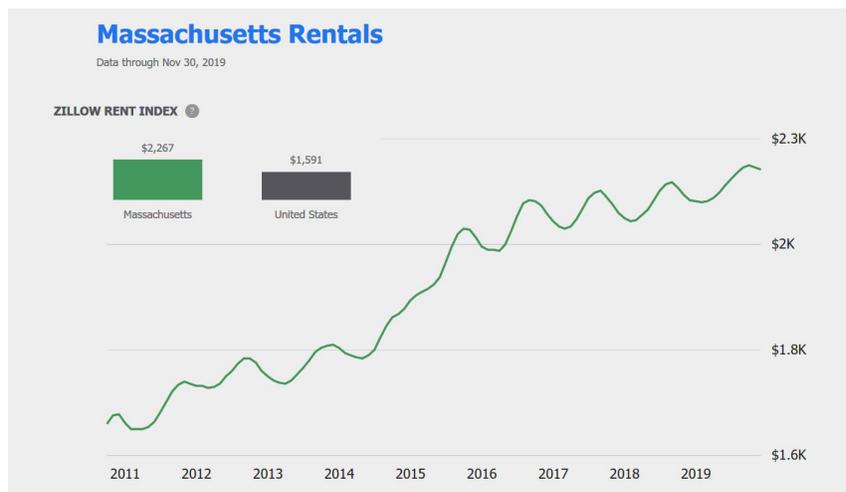

5. **Pandemic Response. How would you evaluate the state's response to the Covid-19 pandemic?**

DPM: In my opinion, I certainly believe the State response well to the COVID-19 pandemic. It could have been much better if the Federal government took the virus more seriously, but the Massachusetts state leaders stepped up in-timely fashion. However, I would be very cautious when it comes to reopen the State back. I feel like there's more work to be done. I would not rush in reopen the state. At the same time, I would consider lost wages, rental and mortgages payments and see how we can develop more grants to help those in need. I strongly support more testing throughout the commonwealth of Massachusetts. I think we need to develop a more thorough contacts tracing in order to get that dangerous virus under control. I would make it clear to everyone that Contacts tracing won't cure the virus. However, it will help CDC and the state's health officials to control it much better.

E. Housing

Massachusetts has a lot to offer, but that does little if people can't afford to live here. The [US News & World Report's annual state rankings](#) put Massachusetts at #41 in housing affordability (and #43 in cost of living). A worker earning minimum wage in Massachusetts would have to work [91 hours a week](#) to afford a modest one-bedroom rental home at market rate (and 113 hours for a modest two-bedroom). Over the last ten years, the need for affordable housing has increased, while funds for affordable housing have decreased at both federal and state levels. This is unsustainable. It has led to expanding economic inequality, increased homelessness, and damage to our economy, as talented workers often leave the state for less expensive regions.

Monthly median rents have gone up by more than one-third since 2010, outpacing income growth.

(source: zillow.com)

1. Please explain your principles and proposals as relate to this issue, and what work you personally have done to advance them (legislation, community work, published writings, etc.).

DPM: "AFFORDABLE HOUSING" is one of my top priorities. Having purchased a house in Hyde Park about 7 years ago; I completely understand how hard the process is to live the American dream when buying even consider renting, and how bad the market is, even before Covid-19. We need to create strategic planning for housing legislation to build more affordable housing for hardworking families by providing formularies and implementing guidelines on housing payment models. Just like the graphic shows, the cost of living in the Commonwealth of Massachusetts is very expensive. Families cannot respond to housing costs with minimum wages. If the state income tax is the largest source of funding for state programs and services such as: housing, education, create jobs, infrastructures, and so on. Why can't it be at the people's needs? Again, it's a lack of a mechanism for accountability.

If we look at the graph, a family would have to work over ninety hours in order to afford a one-bedroom apartment. Families are barely seeing their children because they are doing two to three jobs just to have a decent living. It should not have to be like that. Once I get elected, I would propose for a single head of household with two dependents (Children) making less than \$30,000 yearly should be entitle to 80% to 90% of housing subsidize. A couple with two children making under \$50,000 should be in titled to receive 75% to 85% of housing Subsidize. I personally think the more you encourage hardworking families the better it is for us as leaders, because it will reflect back on our society. Parents will have more time for their children and they will monitor their children activities much better.

2. **Funding.** Would you support legislation that would allow cities and towns to impose a fee on real estate transfers to generate revenue for affordable housing, with the ability to create local exemptions as appropriate?

DPM: YES.

3. **Tenant Protections.** Do you support passing enabling legislation to provide municipalities with the authority to implement rent-stabilizing regulations, just cause eviction protections, stronger condominium conversion and foreclosure protections, anti-displacement zones, and options to help tenants manage the upfront costs of leasing an apartment?

DPM: YES.

4. **Zoning Reform/Housing Production.** Do you support requiring cities and towns to allow multifamily housing to be built as of right within 1 mile of transit stations?

DPM: YES.

5. **Eviction Sealing.** Today, when a tenant exercises their legal rights in housing court, it creates a permanent record. Eviction records create lasting stigma, are error prone and impair access to stable housing. Would you support legislation to seal eviction records so that both tenant and landlord could move on with their lives after three years?

DPM: YES.

F. Racial and Social Justice

Massachusetts must continue to strive to be a state that welcomes and embraces all of its residents and combats prejudice and discrimination of all kinds.

Mass incarceration in Massachusetts has proven socially and economically destructive, breaking apart communities across the state. From 2011 to 2016, [spending on prisons](#) grew faster than any other part of the Massachusetts budget, while funding for necessary services languished. The average cost per year to house an inmate in the Massachusetts Department of Corrections is [more than \\$60,000](#), money that could be better reinvested into the communities that have suffered from decades of misguided and racially discriminatory “tough on crime” policies. To achieve “justice for all,” we need a judicial system that does not disproportionately target communities of color and the poor and that does not criminalize public health issues such as addiction. The April 2018 criminal justice reform bill made strides forward, but there is more work to do.

Immigrants make up 16% of Massachusetts’s population; however, demagoguery against, or indifference to, immigrant populations has historically been a mainstay of Massachusetts politics. As the Trump administration in Washington ramps up a xenophobic mass deportation agenda, it is important for states like Massachusetts to take leadership in protecting and advancing the rights of our immigrant communities and making clear that all are welcome.

Significant racial disparities exist in incarceration in Massachusetts.

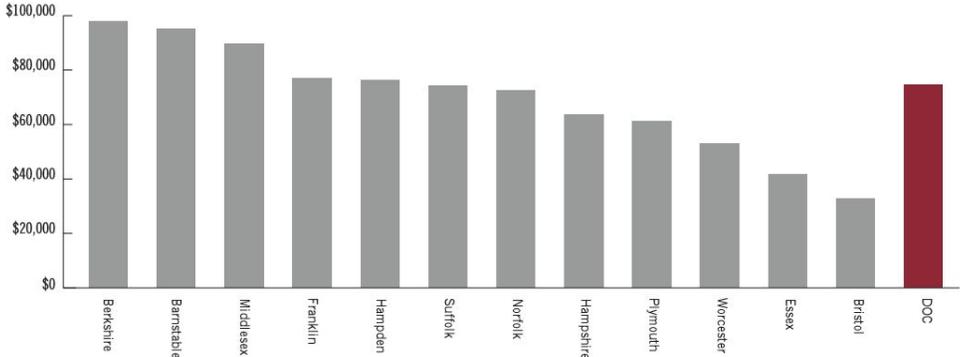

Imprisonment by Race/Ethnicity (2014)	
White imprisonment rate (per 100,000)	81
Black imprisonment rate (per 100,000)	605
Hispanic imprisonment rate (per 100,000)	351

Racial/Ethnic Disparity in Imprisonment (2014)	
Black : white ratio	7.5
Hispanic : white ratio	4.3

Juveniles in Custody (2015)	
Juvenile custody rate (per 100,000)	66
White custody rate (per 100,000)	22
Black custody rate (per 100,000)	222
Latino custody rate (per 100,000)	172
American Indian custody rate (per 100,000)	0
Asian custody rate (per 100,000)	7

Massachusetts spends large (and growing) sums per inmate -- while still not providing for basic needs.

Figure 4: Estimated expenditure per inmate, FY 2019

Source: MassINC's analysis of Department of Correction Weekly Count Sheets, April 2018, and average House and SWM FY 2019 budget proposals (adjusted upward based on final expenditures, FY 2011 to FY 2018)

1. **Please explain your principles and proposals as relate to this issue, and what work you personally have done to advance them (legislation, community work, published writings, etc.).**

DPM: I will support advance equal and meaningful access to economic Justice through the courts or while in law-enforcement custody for everyone. I believe that equal access to education and economic justice will lead to a fairer society. I strongly believe in fundamental changes that truly level the playing field for generations to come, and not in "Band-Aid-solution" designed for appeasement. Again, regardless of your ethnicity, I believe in equal justice for all.

2. **Police Accountability. Do you support the establishment of an independent review board for police shootings in the Commonwealth?**

DPM: YES.

3. **Sentencing Reform. The 2018 criminal justice reform bill was an important first step in reducing mass incarceration. However, in our "liberal" state, incarceration rates remain much higher than they are in other countries, and sentencing laws can be even more punitive than those in states viewed as conservative. Which of the following reforms would you support?**

- a. Eliminating mandatory minimums for opioid-related offenses?
- b. Raising the age of criminal majority from 18 to 21, in line with research that shows that young offenders served by a juvenile system are much less likely to reoffend and more likely to successfully transition to adulthood?
- c. Decriminalizing consensual sexual activity between adolescents, by creating an exception to the statutory rape law for youth close in age?
- d. Eliminating the sentence of life without parole, which is costly and has been shown to be racist in its application?

4. **Solitary Confinement. In Massachusetts, prisoners can be sentenced to 10 years of solitary confinement—per infraction. The UN defines holding someone in solitary confinement for more than 15 days as torture. Do you support limiting the use of solitary to no more than 15 consecutive days?**

DPM: YES.

5. **Prison Visitation. Maintaining connections with friends and family outside prisons is one of the most important factors in ensuring successful reentry. In March 2018, the DOC severely limited the ability of prisoners to receive visits and the rights of family and friends to visit their loved ones in prison. ([Read more on this here.](#)) Do you favor ending these restrictions?**

DPM: YES.

6. **Prison Profiteering. While Massachusetts does not have private prisons, the DOC invites private companies to profit off of the families of prisoners by price gouging inmates who have no alternatives but to buy from the sole providers of goods in prisons. Do support ending the price gouging of inmates for necessary items and requiring DOC to adequately supply inmates with the basic requirements necessary for life to keep in contact with their families and maintain good health and hygiene?**

DPM: YES.

7. **Safe Communities Act. Do you support the Safe Communities Act, which limits local and state police collaboration with federal immigration agents, bars law enforcement and court personnel from inquiring about immigration status, and ensures due process protections?**

DPM: YES.

8. **Work and Family Mobility Act. Do you support removing immigration status as a barrier to applying for a license or learner's permit?**

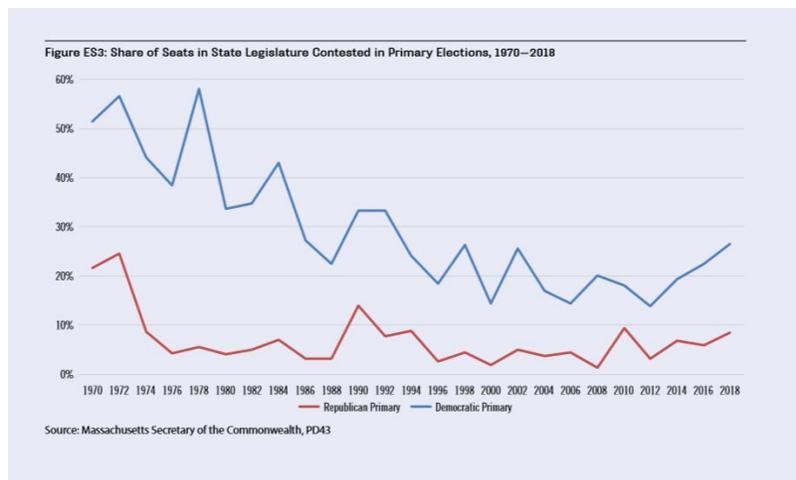

DPM: YES.

G. Good Government and Strong Democracy

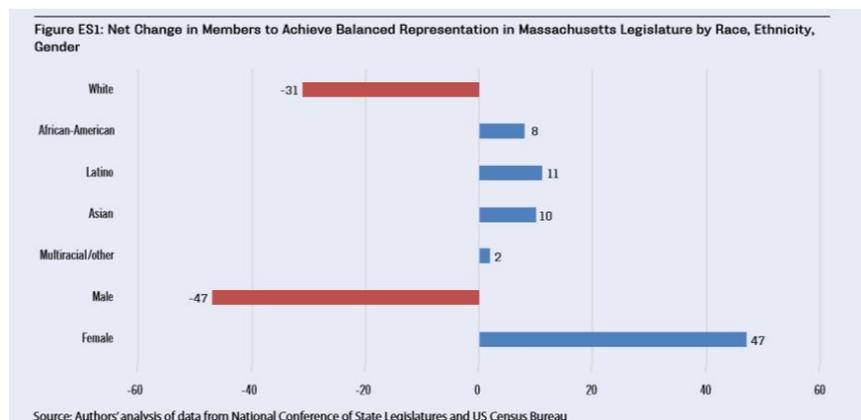

A strong democracy depends on a transparent and representative government and an engaged public. Too often, however, we see centralized, unaccountable power and barriers to participation. An undemocratic, centralized power structure on Beacon Hill makes it easier for lobbyists to target the top and undermine the system. Despite recent reforms, a weak public records system stymies government accountability: MA is one of only two states where all three branches of state government claim to be exempt. A strong democracy requires an engaged electorate, but voter turnout in midterm elections, and especially local elections, remains low. Although election modernization legislation in 2014 and 2018 helped bring much-needed reforms, we still lag behind states in New England and around the country in making voting accessible (Maine, for instance, has allowed for Election Day Registration since the 1970s).

A centralized power system, a skewed campaign finance system, and restrictive voting laws together help create a situation in which our elections are the [least competitive in the country](#).

Our elections have grown less competitive over the past four decades.

Our legislature is not reflective of the population as a whole.

1. **Please explain your principles and proposals as relate to this issue, and what work you personally have done to advance them (legislation, community work, published writings, etc.).**

DPM: Accountability is the magic action to gain the public trust. Accountability will also ensure that we have transparency, and equal opportunities for all. Public corruptions will not find its way through our system the minute I get elected. In order to get rid of corruptions, all we need is one respectful leader to stand up, point it out, and make it known to the public. Once I get elected, I will fight to bring transparency to the house so that our constituents can get access to view every monetary details going on at any times.

2. **Public Records Law. Massachusetts is one of only two states where the Governor's Office, the Legislature, and the Judiciary claim full exemption from the public records laws. Would you support eliminating this exemption?**

DPM: YES.

3. **Legislative Transparency -- Part I. The Massachusetts Legislature lacks many basic transparency measures found in other state legislatures around the country. Would you vote in favor of making the following items available online...?**

- a. All committee votes, whether taken by electronic poll or formal roll call?
- b. All written testimony submitted for or against bills?
- c. Reader-friendly summaries of bills currently in or reported out of committee?

4. **Legislative Transparency -- Part II. Legislators only vote to change the rules at the start of the legislative session, but all legislators can model transparency on their own throughout the session. Would you commit to doing the following...?**

- a. Standing for a recorded vote when a colleague asks for one on any amendment which you have co-sponsored?
- b. Making your committee votes available online on your website?

5. **State House Culture. Do you support the creation an independent commission to investigate and report on complaints of workplace and sexual harassment in the Massachusetts Legislature?**

DPM: YES.

6. **Public Campaign Financing. Our campaign finance system favors incumbency and discriminates against potential candidates who do not have a ready pool of wealthy donors. Do you support the creation of a robust public financing system for state elections?**

DPM: YES.

7. **Removing Barriers to Running. The cost of child care can prove prohibitive to working mothers or fathers seeking to run for office. Would you support legislation to explicitly allow working parents running for office to use campaign funds to pay for child care?**

DPM: YES.

8. **Voting Access. Which of the following policies to increase voter participation do you support?**

- a. Election Day Registration?
- b. The expansion of early voting to municipal elections and primaries?

c. No-fault absentee voting?

d. Ending the disenfranchisement of prisoners serving with felony convictions (Their right to vote was taken away by ballot twenty years ago)?

9. **Ranked Choice Voting.** Do you support the 2020 ballot initiative to adopt ranked choice voting for state, county, and (non-presidential) federal elections?

DPM: YES.

10. **Election Integrity.** Do you support requiring **risk-limiting audits** of election results, in which a statistically significant percentage of ballots are hand counted to ensure that the reported winner was the actual winner, preserving the integrity of elections from foreign interference, technological glitches, or simple human error?

DPM: YES.

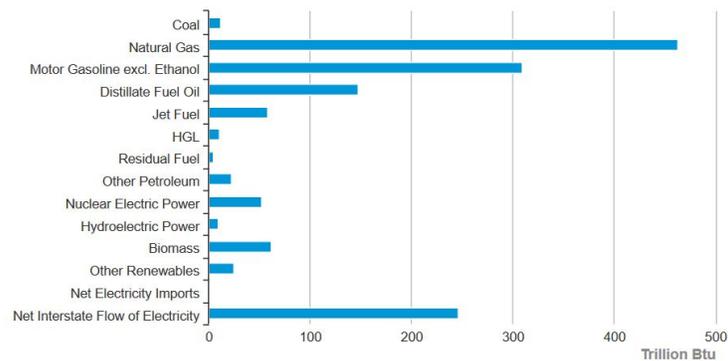

H. Sustainable Infrastructure and Environmental Protection

As a coastal state, Massachusetts will be hit particularly hard by climate change, but we are not responding with the necessary urgency. In order to avoid catastrophic climate change, global carbon emissions need to be [halved by 2030](#) and brought to net zero by 2050. In 2016, the Massachusetts Supreme Judicial Court ruled that the state has failed to meet its legal obligation to set and enforce annual limits on greenhouse gas emissions as outlined in the 2008 Global Warming Solutions Act. Setting and reaching these goals will require the decarbonization of our state economy and a transition away from fossil fuels toward clean, renewable sources of energy. In light of congressional gridlock at the federal level, state government must take a role in incentivizing reduced carbon usage and assisting in coordination between agencies and moving forward local government understanding of looming climate threats.

Public transit must play a role in decarbonizing our transportation system, as well as advancing complementary goals of equity and inclusion. However, Massachusetts politicians have lost their understanding of public transit as a public good that benefits all residents and businesses in Massachusetts, not just those who use it in their daily lives. The greatest evidence of this is their neglect of the MBTA: its debt has grown to nearly [\\$5 billion](#), and it would need [more than \\$10 billion](#) to bring infrastructure and equipment up to a state of good repair. Regional Transit Authorities that serve communities, including Gateway Cities across the state, face enormous capital needs as well.

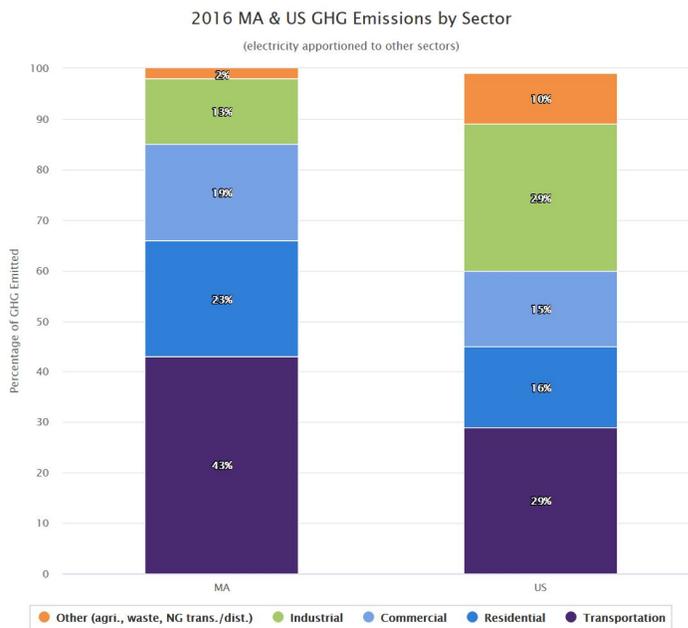

Despite recent progress, Massachusetts is still overwhelmingly dependent on fossil fuels.

Massachusetts Energy Consumption Estimates, 2017

 Source: Energy Information Administration, State Energy Data System

Transportation is currently the largest contributor to greenhouse gas emissions in MA.

(Source: <http://www.mass.gov>)

- 1. Please explain your principles and proposals as relate to this issue, and what work you personally have done to advance them (legislation, community work, published writings, etc.).**

DPM: I believe it's time to visualize it differently. If decarbonizing our economy will require decarbonizing our transportation system. Well, why not rebate 70% of funds generated back out to consumers and provides higher rebates for low to middle-income and rural households. I think to walk, bike, ride a bus, or ride a train in an affordable and accessible manner to get to the desired destination is healthier and our environment is safer too.

- 2. Waste Reduction. Would you support a statewide ban on single-use shopping bags and a requirement that alternatives be more sustainable?**

DPM: YES.

- 3. Solar Energy. Do you support increasing equitable access to solar power by removing caps on solar generation and restoring compensation for low-income and community solar?**

DPM: YES.

- 4. Renewable Energy. Do you support a target of 100% renewable energy economy-wide by 2045 and 100% renewable electricity by 2035?**

DPM: YES.

- 5. Environmental Justice. Successive gubernatorial administrations have made verbal commitments to environmental justice (EJ), and Governor Deval Patrick issued an Executive Order on Environmental Justice in 2014 which has not been implemented. Would you support efforts to codify EJ into law?**

DPM: YES.

6. **Fossil Fuel Infrastructure.** Do you oppose the expansion of gas pipelines in the state?

DPM: YES.

7. **Carbon Pricing.** Do you support imposing a fee on carbon emissions and using some of the revenue to invest in green infrastructure, especially in frontline communities?

DPM: YES.

8. **Public Transportation.** Will you oppose any fare increases to the MBTA or regional transit authorities and work toward the goal of fare-free public transit?

DPM: YES.

9. **Regional Transportation Funding.** The unavailability of state funds for infrastructure spending has meant the deterioration of regional transportation systems. Do you support allowing municipalities to place a question on the ballot to raise revenue for local and regional transportation projects?

DPM: YES.

III. ADDITIONAL COMMENTS

Limit answer to 150 words or fewer.

Use this space to add any other issues important to your vision for Massachusetts or any other matter you think progressive voters should know about your candidacy.

DPM: I commit to being accessible, reliable, Responsible, and most importantly transparent. "Our communities' success is our success."
