

National Training in Community Organising **4-9th November 2018**

Strengthening our Civil Society for the Common Good

The Sydney Alliance and Queensland Community Alliance are both a new kind of citizens' coalition whose mission is to provide our communities with a voice to express our common values and aspirations for fair and just cities and states.

The Alliances are broadly based across religious organisations, community organisations and unions establishing relationships that respect diversity while building a cohesive society. The Alliances are non-party-political organisations. The primary purpose is the ability to act for the common good, to achieve social change and peace building in our communities.

Participating organisations are encouraged to strategically select leaders to attend the Six Day National Training program.
