

# 6 Day National Training Brisbane, 26-31 October 2014

## Strengthening our Civil Society for the Common Good

The Sydney Alliance and Queensland Community Alliance are both a new kind of citizens' coalition whose mission is to provide our communities with a voice to express our common values and aspirations for fair and just cities.

The Alliances are broadly based across religious organisations, community organisations and unions establishing relationships that respect diversity while building a cohesive society. The Alliances are non-party-political organisations. The primary purpose is the ability to act for the common good, to achieve social change and peace building in our communities.

Participating organisations are encouraged to strategically select leaders to attend the Six Day National Training program. This course will:

- Refine and shape their understanding of themselves and their role as leaders
- Equip them with the understanding and skills necessary to implement strategies to strengthen their organisation to more effectively achieve its purpose
- Develop leaders within their organisation and grow co-operative relationships within their organisation and with potential partners in other organizations.
- Put principles into practice at the Queensland Community Alliance Annual Assembly during the 6 days
- Set strategic objectives, develop achievable plans and then mobilise the human and other resources necessary to carry out the plan

**The training team** will include experienced trainers and organisers from the Sydney Alliance, Queensland Community Alliance and a lead trainer from the United States. Details will be forwarded later in the year with information regarding the international trainer.

### **PREREQUISITES**

1. Attended 2 Day Foundations Training or 1 Day Schools Training. *(This is the introductory training to community organising)*
2. Member of a partner organisation.
