

Going to Rainbow Families Playgroup

Sometimes I go to the Rainbow Families Playgroup. The rainbow Families Playgroup happens most Thursday mornings. I usually go to playgroup with my family.

There are lots of fun things to do at playgroup and lots of toys to play with. Sometimes we might do some painting. Sometimes we might make something. Sometimes we might play in the water tray. We usually do some singing at playgroup and we sometimes get to play with musical instruments.

There are usually some other children to play with at playgroup. It is sometimes fun to play with other children. When I play with the other children I need to try and share the toys. It is more fun if we take it in turns and share the toys. It is also ok to play by myself sometimes. If I want to play with the other children I could say "Can I play with you?" If I want to play by myself I could say "I don't want to play right now, let's play later."

When we get to playgroup there will probably be some other Rainbow families there to play with. There might be some children and adults that I know or there might be some new children and adults that I don't know. It is good to play with children that I know but it is also good to play with children that I don't know. When children come to Rainbow Families for the first time it is good to say "Hello" and ask them "What's your name?"

At playgroup, we usually have morning tea. I will bring a piece of fruit to share. Sometimes we might eat banana. Sometimes we might eat apples. Sometimes we might eat mandarins. Sometimes we might eat different fruit. It's good to try different fruit for morning tea. I need to try and share the fruit with the other children. It's good to share morning tea.

When playgroup has finished we need to leave. Sometimes we will go home but sometimes we might go somewhere else. Playgroup is fun. Sometimes I might feel sad when it ends but that's ok. I will be able to go to playgroup another week.
