

## LLIER MPP LANARK-FRONTENAC-KINGSTON ETITION

## A Petition to the Legislative Assembly of Ontario - No More Lockdowns

WHEREAS the threat of COVID-19 is now understood not to be a risk to the vast majority of the people of Ontario; **AND WHEREAS** present testing methods are defective and inaccurate at discerning viral spread due to their excessive false-positive rate; **AND WHEREAS** countless small and medium-sized businesses have already been lost as a result of the prior lockdown; **AND WHEREAS** millions of people have been denied proper medical attention and needed procedures; AND WHEREAS global data now demonstrates that children are at extremely low risk of serious illness, but are disproportionately harmed by lockdowns; AND WHEREAS a growing number of physicians throughout Ontario and the world have recognized that COVID-19 is "not a killer virus, but a treatable condition"

> AND WHEREAS a repeated lockdown along with the present COVID-19 ordinances contravene the rights and freedoms of the people as enshrined in the Charter of Rights and Freedoms; WE, the undersigned, petition the Legislative Assembly of Ontario as follows: That the Government of Ontario commit to not forcing the people of Ontario and businesses back into a lockdown for the COVID-19 virus.
