**Describe in your own words, the role of a CADEM delegate.**

To serve as a conduit between constituents in AD-40, the party and elected representatives.

**What are the 3 issues you care about and will prioritize?**

Inland empire (namely economics and jobs), marginalized groups, including people of color, equity in health care.

**If you were to write a resolution proposal for consideration by CADEM, what would it be? Please summarize using 2-3 sentences**

Whereas California prides itself on being a national leader on issues related to diversity, equity and inclusion, be it resolved that the state values all lives, including those of marginalized people, and will undertake any and all efforts related to promotion of the quality of those lives, including legislation related to equity in education, health care, and the environment.

**What caucuses &/ standing committees would you like to be a part of and why?**

African-American caucus; labor caucus.

**Member-submitted Questions: RADC members provided the following list of key issues that they would like to see addressed by delegates. Please pick one. Discuss any experiences (lobbying/demonstrations/letter writing/etc...) you may have on the issue as well as the skills you will bring to further the cause as a delegate: A) Reparations B) Climate Change C) Healthcare**

Reparations: I am closely watching Evanston, Illinois, which may be the first city to grapple with the "how" of reparations. The state of California has passed something similar to what is proposed on the federal level (H.R. 40); i.e. a committee to study reparations. Now there needs to be follow up, and a possible city to city strategy to look at practical ways to do reparations.
