Describe in your own words, the role of a CADEM delegate.

To be the voice of the community and constituents in AD40/CD31. To help elect CA Party officers, regional directors, help determine which legislation and propositions to endorse and help the determine the party platform.

What are the 3 issues you care about and will prioritize?

So many people are hurting, so economic development in the Inland Empire/jobs that pay above minimum wage, housing/rental issues and healthcare for everyone.

If you were to write a resolution proposal for consideration by CADEM, what would it be? Please summarize using 2-3 sentences.

Resolution to research and implement economic policies that affect the Inland Empire. Underserved communities in this geographic area have historically been overlooked for state and federal funding. Implement programs and strategies to provide equal opportunities to the communities in the Inland Empire.

What caucuses &/ standing committees would you like to be a part of and why?

Chicano Latino Caucus, Women's Caucus, and Labor Caucus these are areas of interest that I have had for many years. I would like to bring my organizational and communications skills to help on these caucuses. The committees that interest me are Voter Services since I have worked on candidate campaigns. It would be great to enhance the voter experience and streamline the process. The Platform committee interests me so I can assist, update and bring new ideas to the party. Rules committee interests me since our club is going through the updating of the bylaws.

Member-submitted Questions: RADC members provided the following list of key issues that they would like to see addressed by delegates. Please pick one. Discuss any experiences (lobbying/demonstrations/letter writing/etc...) you may have on the issue as well as the skills you will bring to further the cause as a delegate: A) Reparations B) Climate Change C) Healthcare

On a daily basis I work to help people sign up for healthcare through the County or through an insurance company. It is heartbreaking to hear their personal stories of how they are struggling to get through the system to get health coverage. With so many people losing their jobs along with their healthcare, the system is backed up with a 30-45 day processing time. Some of these people have COVID-19 and need health insurance. I would lobby to hire more workers at the County level to help these people especially during this time of COVID-19. I would also lobby to streamline the whole process with a Consumer Hotline and getting a live person on the phone. I

constantly hear people say that they call the county but no one answers the phone and/or they get hung up on. This can be resolved with some smart solutions.
