**Describe in your own words, the role of a CADEM delegate.**

Represent and give a voice from my district of the issues/candidates that are important and take it to the California State party.

**What are the 3 issues you care about and will prioritize?**

Hold our representatives accountable to bring help to our county for jobs, housing that is affordable and universal healthcare.

**If you were to write a resolution proposal for consideration by CADEM, what would it be? Please summarize using 2-3 sentences**

The homeless population is growing and with more people loosing there jobs, it is only going to get worse. The need for resources and rent control are even more important now than ever before. The commitment to helping our county and communities to get funding and programs in place to support and minimize the impact of continued homelessness.

**What caucuses &/ standing committees would you like to be a part of and why?**

Voter services Committee I would like to get involved with as now more that ever it is so important to vote. Our county has a large minority population and I hope that one day our voter turnout is better than it is now.

**Member-submitted Questions: RADC members provided the following list of key issues that they would like to see addressed by delegates. Please pick one. Discuss any experiences (lobbying/demonstrations/letter writing/etc...) you may have on the issue as well as the skills you will bring to further the cause as a delegate: A) Reparations B) Climate Change C) Healthcare**

Healthcare- As a Registered nurse who works in the Mental health field, i understand the need there is for a Universal healthcare that benefits all. I have written letters to our congress and assembly members, as well as supported and demonstrated with healthcare workers in support of their needs and when rallying for healthcare for all. I see the need every day and even in my own family members that cannot afford health insurance. My job has allowed me to see up and close that need of others and I will continue to fight for this.
