**Describe in your own words, the role of a CADEM delegate.**

To know and understand the wants and needs of the voters, and then vote as their proxy at the national convention.

**What are the 3 issues you care about and will prioritize?**

Representation of the poor and working class, political education, and promoting concrete policies over platitudes.

**If you were to write a resolution proposal for consideration by CADEM, what would it be? Please summarize using 2-3 sentences**

The implementation of Rank Choice Voting for all major political elections in the US. This would open opportunities for a more diverse political choices. We wouldn't be stuck with the lesser of two evils any more.

**What caucuses &/ standing committees would you like to be a part of and why?**

Disabilities Caucus, Environmental Caucus or Progressive Caucus. Legislation Committee, Organizational Development Committee or Voter Services Committee.

**Member-submitted Questions: RADC members provided the following list of key issues that they would like to see addressed by delegates. Please pick one. Discuss any experiences (lobbying/demonstrations/letter writing/etc...) you may have on the issue as well as the skills you will bring to further the cause as a delegate: A) Reparations B) Climate Change C) Healthcare**

Healthcare is an issue I care greatly about. As the mother of two disabled children, I have had to meander the maze that is our healthcare system. Right now it doesn't doesn't work the same way for everyone. That's wrong. We can change that with single payer health coverage. But we can't stop there. Mental health services are poorly funded, funded incorrectly and seldom reach the people who need them most. I have seen this first hand. As well as physical medical conditions my boys have mental health challenges. I truly feel, if we want a productive work force, we need to address many issues. And it is safe to say we can start with a living wage and jump to comprehensive mental healthcare for all who need it.
