This means providing routine care and sick visits in Primary Care, offering Urgent Care after hours or if you can't see your Primary Care team, and making sure you have access to local emergency care if you have a serious or life threatening injury or illness.

Will CHA Somerville Campus Urgent Care offer anything special?

Yes, Somerville Urgent Care will offer services that many other urgent care centers don't – like intravenous medications, rehydration treatments, injections and care for minor breaks. We are the only urgent care in the area that will accept everyone, even if you don't have insurance.
