THE GATHERING

The Gathering is for anyone interested in making local school councils (LSC) more effective. Whether you are curious about LSC's, what it means to be an LSC member; or whether you're unsure if your school has an LSC; The Gathering is for you.

Experts will be available to help participants: assess the needs of their respective schools, schedule trainings, provide technical assistance, and arrange monthly sessions to work together on improving LSC's for all.
