# WHAT MAKES A SCHOOL GREAT?

## And can school quality ratings measure it?

Chicago schools live and die by their ratings. Ratings drive enrollment and resources and are used to justify closings. What if communities created a rating system to help schools, students and families? What would a rating system designed to *decrease* sorting, segregation and inequity look like?

With Jack Schneider, College of the Holy Cross, author of *Beyond Test Scores: A Better Way to Measure School Quality*
