Dear Craig:

Re: Request for Health Services Review Committee

Thank you for your application to the Health Services Review Committee requesting a review of the Ministry's decision to deny your request for coverage of out of country medical treatment for Conner Finn. We appreciate your patience with this response.

The Health Services Review Committee reviewed your request. After careful consideration of your application and any related information, the recommendation of the Health Services Committee is that the Ministry of Health reconsider their original decision.

You will be notified from the Ministry of Health following their review of the recommendation made by the Health Services Review Committee.

Sincerely,

Crystal Blundell, Coordinator  
Health Services Review Committee
