Re: **Letter to School Divisions RE Extracurricular Activities**

On November 17th there was a letter sent to Saskatchewan School Divisions reminding them that unvaccinated students may not be denied access to school activities, including extra-curricular activities. This applies to activities in all school-based facilities.

Schools and school operations in Saskatchewan, both curricular and extra-curricular, are not considered to be subject to the PoV/NT requirements in the current PHO. This includes sports and arts activities.

If schools are using third party facilities for school activities, they should make COVID-19 protocol arrangements with the third-party facilities or not use the facilities, if they may exclude unvaccinated students who would like to participate.

Positive COVID-19 cases or close contact status still applies to unvaccinated students not being able to participate in activities.

Dustin Duncan
Minister
