Specifically, the proposed rule will raise the cost of professional and personal investment advice, decreasing access and choice for small businesses and small investors.	OPPOSE

<p>California Drug Price Relief Initiative</p>		<p>The Drug Relief Act would attempt to reduce the price of prescription drugs purchased directly or indirectly by the state by requiring California officials to negotiate prices that are equal to or lower than those paid by the U.S. Department of Veterans Affairs. This initiative was designed to restrict the amount that any state agency could pay for drugs, tying it to the price paid by the U.S. Department of Veterans Affairs. The measure would apply in any case in which the state ultimately provides funding for the purchase of drugs, even if the drugs are not purchased directly by a government agency. Supporters argue the initiative would lower drug prices and increase transparency in the pharmaceutical industry.</p>	<p>Oppose</p>
