

SCOOTER SUMMIT

Thursday, February 28th

Scooter Demos 12pm - Panel Discussions 1-4pm

**Faulkner Gallery
at the
Central Library**
40 E. Anapamu St., SB

Shared micromobility companies offering electric scooters for short transportation trips are being launched in many US Cities, and over the past year have appeared in the South Coast, creating both concern and buzz amongst the general public and public officials. Learn what other cities have done to regulate electric scooters, hear some lessons learned from scooter companies about their past, current and future launches, and participate in discussions regarding the future of electric scooters in the South Coast. Test different models of electric scooters for yourself.

Space is limited
to 135 people.
**Complimentary
tickets for the
summit and demos
are required.**

SPEAKERS
Keynote from Francie Stefan of the City of Santa Monica, an industry panel, a public-sector panel, and closing remarks by Joan Hartmann and Gregg Hart.
