

Spokane GOP Supports Fair and Honest Elections

The 2020 election has raised a number of concerns about our elective process. Therefore, the Spokane County Republican Party's Executive Board passed a Resolution on November 10th, 2020, supporting "**Fair and Honest Elections**".

1. We believe that it is imperative in a free and democratic Republic that all people have confidence in our elective process.
2. We believe that all legal votes must be counted.
3. We believe that all legal challenges need to be completely adjudicated.
4. We believe that all of the laws concerning fair observation of our election process need to be upheld.
5. We believe that every effort must be used to hold accountable those who have not upheld and fully complied with these laws.

Only as we demonstrate complete fidelity to all of the important parts of our election process can we move forward as a nation with confidence. Where elections are decided by slim margins and passions are high, it is even more important. We cannot allow those who are more concerned with their own political agendas to undermine the very fabric of our Republic.
