

Climate & Energy

TOP HACKS FOR POSITIVE ACTION

SAVING ENERGY, MONEY AND CARBON EMISSIONS

- Flick off lights in rooms when not being used
- Replace your old lights with energy efficient LEDs
- Switch appliances off at the wall to reduce 'standby' power
- Only use a clothes dryer when necessary
- Wash your clothes in cold water - It's just as good as a warm wash
- Don't overheat and use fans for cooling
- Shade your windows to keep cool (and warm!)
- Use easy DIY seals to draught-proof your windows and doors
- Choose energy efficient appliances - look for 4-6 stars on the Energy Rating label
- Install solar power at home for huge long term bill savings
