

Sustainable Transport

TOP HACKS FOR POSITIVE ACTION

TRAVELLING FOR THE GOOD OF OUR HEALTH AND PLANET

Walk for short trips to the local shops, parks, or school

Car-pool or use the new on-demand Ride Plus service

Use green driving techniques
- check tyre pressure, slow down, drive smoothly

Try car share – saves \$ from owning a car (Go Get and Car Next Door)

Work from home or use video-conferencing
(e.g. Google Hangouts, Skype, Facetime)

Catch public transport - we have 29 bus routes in Waverley!

Demonstrate healthy transport to your kids by walking or cycling to school

Attend a free Council bike-maintenance workshop to learn how to look after your bike

Try an electric bike. Heck if the money allows, try an electric car for smoother simpler travel!
