

Practical considerations for the South East Green Party's Escape to the Country

The nearest villages have limited facilities and **you are advised to bring everything you may need for the weekend with you**, including your own mug for hot drinks.

This is a quiet rural venue and **if it rains it could be muddy**. Most of the activities will be held either in the barn or outdoors or under canvas.

Swimming is possible in the river (at own risk)

Drinks: we will provide a paid bar but you can also BYO.

Children: we currently don't have resources to provide a creche. There is space on the site to entertain your children away from the main venue. Those with children will need to be aware of the river and fire pit - parents will be responsible for supervising their children. If you are planning to bring your children along please email us separately to confirm numbers and arrangements. There is no charge for accommodation for accompanied children.
