## Young Workers' Committee

*The mission of the SEIU-West Young Workers Committee is to engage and unite young union members to become more active and knowledgeable in the labour movement. Our goal is to mobilize young workers across Saskatchewan to become leaders and activists for social change within their unions and communities at large. Through support, unity and encouragement, we help develop skills for young worker leadership today.*

The Young Workers' Committee have had a busy two (2) years. We have been focusing on our Shine the Light articles which focus on topics important to young workers and all members: 211, black lives matter, mental health and addiction. Pharmacare, man up against violence and domestic violence. You can read them on the website, but also the newsletters. As a committee we wrote a letter to the Premier, but the response we received back was poor and frustrating. We did a national day of remembrance and action violence against women .Due to COVID we did not get to go out as much as we would have like. We conducted a young worker experience during COVID-19 and also covered mental Health the winners got prizes.
