

A Better You.  
A Greater Us.

# What is ServiceYear.org?

**ServiceYear.org connects individuals eager to serve with your service year opportunities.**

Service Year Alliance has launched the **“For One Year: This Was My Office”** campaign to build demand and awareness of the life-changing service year experience. This campaign features photos, videos, and stories of service year corps members from across the country to highlight what their “office” is like during their service year. We’re driving all of the traffic from this campaign to [ServiceYear.org](https://www.serviceyear.org), where future corps members can discover your service year opportunities.

## How candidates find your listings:

- We suggest matches: Candidates automatically receive suggested listings based on their preferences and qualifications.
- Candidates search opportunities: Along with viewing matches, candidates can use filters to search the database of service year listings.
- You recommend listings: Just as candidates can search for you, you can search for them! Complete a filtered search of candidates with corps member profiles, and recommend your listings to individuals eager to serve.

## How you can connect with candidates:

- Candidates say they’re interested in your listing: You’ll receive a notification, allowing you to learn more about them via their profiles.
- We connect them to your application: Candidates can apply right away through a link to your offsite application on the listing
- You contact them: Recommend your listings to leads you discover, save them to follow up with later, and encourage candidates in your pipeline to apply.

**Ready to find new service year corps members? Join us at [ServiceYear.org](https://www.serviceyear.org)!**

You can enroll your organization and complete our streamlined certification process by submitting your service year positions and an organization profile. You’ll then be ready to create listings and recruit!
